## ***Description of Interest***

The ISAC Pilot Program offers Story County the opportunity to be professionally-guided through a process to develop a foundation for a county-wide strategic plan, identifying an overarching mission and set of goals. With this, we can celebrate our accomplishments and continue to build on successes as we define goals and initiatives to work towards. While Story County has undertaken various initiatives, programs, and identified areas to improve the delivery of services in a cost-effective manner to Story County residents over the past few years, the Pilot Program defines guiding principles for Story County officials and helps to establish implementation strategies.

## ***Letter of Support and Participation Interest by Auditor, Treasurer, Recorder, Sheriff and Attorney***
