Resolution # 21-05

Resolution Imploing the Governor and the Iowa Department of Public Health
To Establish a Test Iowa Site in Story County, Iowa
By August 1, 2020

WHEREAS Story County has seen more than a fivefold increase in COVID-19 cases in the last month, from 152 on June 8 to 807 on July 8, and

WHEREAS, with Iowa State University opening for classes this fall, the population of Story County will increase dramatically on or about August 1, 2020, with thousands of young adults from other states, as well as other locations in Iowa, moving here to attend classes and likely to live in congregate-like conditions off-campus, and

WHEREAS the spike in new positive cases we have already experienced has been in the young adult age range, and

WHEREAS many individuals in this segment of the population have shown that they are more likely to continue socializing and less likely to observe social distancing and other precautions when doing so, and

WHEREAS we are still probably months away from having a vaccine for COVID-19 and, in the meantime, testing and isolation of those who test positive is essential to slowing the spread of the virus, and

WHEREAS Iowa State University is currently planning to test all students who will be housed in its dormitories, but will not have the resources to test students who live off campus unless they are symptomatic, and

WHEREAS individuals who have contracted COVID-19 have been shown to be contagious at least 48 hours before they have symptoms, and

WHEREAS the State of Iowa has established Test Iowa sites in other Iowa counties when they experienced a sudden surge in cases but has not yet done so in Story County,

BE IT THEREFORE RESOLVED that the Story County Board of Supervisors implores the Governor of Iowa and the Iowa Department of Public Health to establish a Test Iowa site in Ames by August 1, 2020, to help make it possible that all Iowa State University students can be tested upon returning to Ames, and to also make testing readily available to all Iowa State University faculty and staff as well as Story County residents, whose risk of contracting COVID-19 will increase with the sudden increase in the population of Ames, and

BE IT FURTHER RESOLVED that the names of all those who test positive through the Test Iowa site in Ames be shared with the Thielen Student Health Center at Iowa State University and Story County Public Health as appropriate to assist them in coordinating contact tracing and isolation.

RE: Notice of Intent to Issue a Permit for Maxwell North Site
Story County
Facility ID #71506

Dear Mr. Ritland:

The Iowa Department of Natural Resources (IDNR) has made a preliminary determination that your application for a construction permit to build two new swine finishing confinement buildings with beneath the floor deep concrete pits, as a new facility, satisfies the legal requirements for issuance of a permit. A draft construction permit for the facility is enclosed.

Iowa Code Section 459.304 allows the Story County Board of Supervisors to contest this decision, as explained in the attached letter. Therefore, the IDNR's intent to issue this permit is not a final decision and you are not authorized to begin construction under the terms of the permit at this time. A final permit will be issued on the 15th day following receipt of this notice by Story County unless the County timely submits a facsimile (FAX) notice of intent to file a demand for hearing. If the County submits a notice of intent to file a demand for hearing, you will be notified, and the permit will not be issued until it is affirmed by the Environmental Protection Commission (EPC).

You may contest the conditions of the proposed permit as provided in 567 Iowa Administrative Code 65.10(8). A copy of this subrule is enclosed.

If you have any questions regarding this draft permit, please contact Cindy Garza at (641) 424-4073, cindy.garza@dnr.iowa.gov or our field office directly.

Sincerely,
