

ANIMAL CONTROL AND SHELTER

Our department has gone through some exciting changes! During the summer of 2018, the Story County Animal Shelter started a remodeling project. Over a year has gone by, and we are proud to say we are finished with the remodel. Some of the changes are a new office area, an area where dogs can run outside, a new HVAC system, and more usable space to make the Animal Shelter run more efficiently. We also have a new livestock building coming in the future, so we will be able to help more in that area. Not only have we been busy with the remodeling project, we have also had many people sponsor fundraising events to benefit the animals at the shelter. At the end of September, we had a very successful open house to celebrate all of the wonderful changes that have happened and the people who made the changes possible. We continue to see a large number of cats and other animals come in to the shelter, but we have also seen a lot of our furry friends go to their forever homes.
