

Match the Resting Heart Rate to the Animal

Resting Heart Rates

*12 beats per min

* 30 beats per min

*60 beats per min

* 70 beats per min

*160 beats per min

*250 beats per min

4.5 grams

_____ beats per minute.

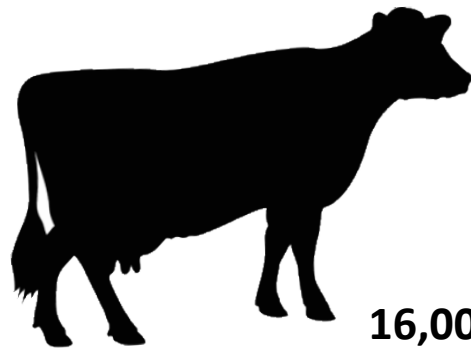

6 pounds

_____ beats per minute.

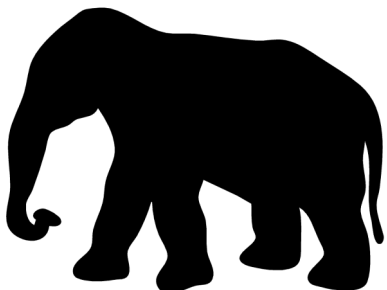

190 pounds

_____ beats per minute.

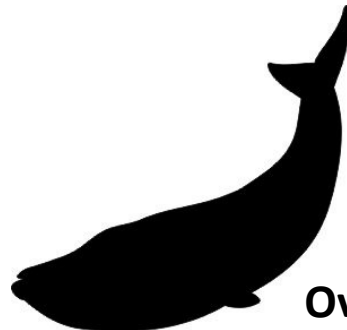

16,000 pounds

_____ beats per minute.

12,000 pounds

_____ beats per minute.

Over 100 tons!

_____ beats per minute.

Answer Sheet

Resting Heart Rates

*12 beats per min

* 30 beats per min

*60 beats per min

* 70 beats per min

*160 beats per min

*250 beats per min

4.5 grams

250 beats per minute.

6 pounds

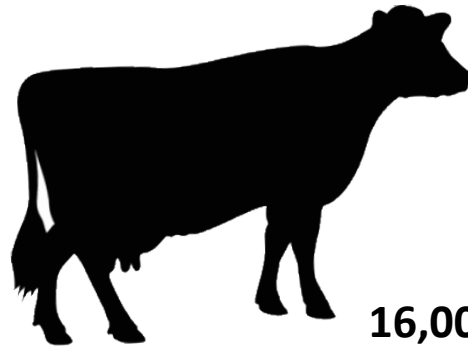

160 beats per minute.

Trend: Smaller you are the faster the resting heart rate. RHR can also be determined by size of your heart. Whales have a heart the size of a small car.

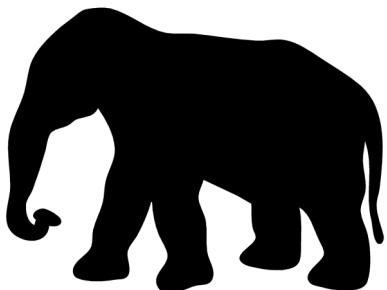

190 pounds

70 beats per minute.

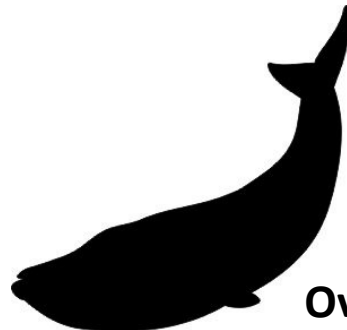

16,000 pounds

60 beats per minute.

12,000 pounds

30 beats per minute.

Over 100 tons!

12 beats per minute.
