

National Groundwater Awareness Week

March 8-14, 2015

"Groundwater awareness is important to you!"

March 8-14, 2015 is National Groundwater Awareness Week and if your water comes from a private well, now is a good time to schedule your annual water well maintenance check. Under a grant issued by the Iowa Department of Public Health, Story County offers free well water testing for bacteria and nitrate concentration for county private well owners. Please contact the Environmental Health Department to set up an appointment today by calling: 515-382-7240 or emailing healthweb@storycounty.gov
