Ethan/John,

Per last email the rates are \$190 per hour for Dr. Strosahl and the Nurse/ Paramedic will just be one flat fee for the visit of \$60. The hourly charge for Dr. Strosahl will be when she leaves the facility, completes the assessment and returns and time needed to complete documentation.

The \$60 rate for Nurse or Paramedic is inclusive of their travel, time to administer, short observation following injection and return to medical center and document the encounter.

Hopefully this makes sense. Let me know if questions.
