To: Story County Board of Supervisors
From: Karla Webb
Date: 5/18/22
Subject: Story County Community Services Office Name Change

As part of the structural changes that are occurring with Central Iowa Community Services (CICS) moving to a single employer of record and the separation of functions between mental health and disability services and general assistance, it is my recommendation to change the name of the Story County Community Services office to Story County General Assistance with an effective date no later than July 1, 2022.

General Assistance will be the primary function of the current Story County Community Services office. A change in the name of the office would help to identify the functions of the office and provide clarity with the CICS office and the current Story County Community Services office being co-located.

Should the Board of Supervisors approve the name change I will work with Facilities Management to update signage. I will also work with staff to update various policies, documents, and the Story County website.

Thank you for your consideration.
