A LOOK AT OUR NUMBERS

■ Cats
 ■ Dogs
 ■ Other

Current Animal Population 1/25/2023: Dogs - 5, Cats - 75, Guinea Pig - 1

Animals in Foster Care as of 1/25/2023: Dogs - 1, Cats - 10

Donations Received:	October	November	December	Total
	\$7,437.30	\$2,411.00	\$12,531.27	\$22,379.57

Looking Back

Animal intakes, more specifically cats and kittens did not slow down in the last quarter and actually increased in October to the highest number according to the last two years of data. I have been entering old written records into our shelter pro software from 2017-2019 to have a clearer picture of possible trends and improvements. Our animal control officer attended a Chemical Immobilization Class in October. This will assist the department when responding to animal control calls when we are unable to safely approach an animal causing dangerous situations or will not let us safely approach.

2022 Animal Shelter Statistics

Highlights of our animal intakes and outcomes. We took in a total of 480 domestic animals. 154 of these were owner surrenders, about a 55% increase from 2021. Our live release rate increased to 96.03%. We had 385 adoptions and 76 of our animals spent time in foster care for either socialization, critical care, supportive care, and hospice. Prior to January 1, 2021, the Story County Animal Shelter used handwritten records to track animal shelter and animal control operations. Some of these handwritten records were not well detailed, which may result in gaps in the data. On January 1, 2021, we implemented Shelter Pro, an automated software system for animal shelters. From January 1, 2021 forward, Story County Animal Shelter records are complete, accurate and without data gaps.
