COMMISSIONERS' REPORT  
RECLASSIFICATION OF BENEFITS  
DRAINAGE DISTRICT NO. 5 GRANT  
STORY COUNTY, IA  
2021

We, Dave Anderson, Mark Tjelmeland and Kent L. Rode, P.E., having previously filed oath, depose and say that we are the commissioners duly appointed to reclassify lands within the boundaries of Drainage District No. 5, Story County, Iowa.

Pursuant to said appointment, we have examined the Drainage District's records, as recorded by the Story County Auditor, to establish the original intended assessment boundary of this District. Any lands previously not recorded within the boundary of this District, but have been found to be receiving benefits from the facilities of this District, were annexed into the District. We have examined each quarter-quarter section or smaller tract of land and have classified each of these parcels. The percentage of benefit each parcel derives from the District's drainage facilities has been determined. There is the Main Open Ditch, Main Tile, Branch A, Branch B, and Branch C schedules.

The **Main Open Ditch, Main Tile, Branch A, Branch B, and Branch C** schedules, we have apportioned an assumed dollar amount to the lands in the district according to the relative percentages of benefit they derive. These schedules do not represent a levy but are intended to provide a basis upon which to spread levies required to cover future costs incurred by the Drainage District on each of these facilities.

We have established the interior drainage boundaries to the lands served and benefited by these facilities. The enclosed schedules with plats reflect the benefitted lands established for each facility.

**Schedules:** The individual schedules are intended to list all parcels benefited by the district facility for which the schedule is prepared. For each parcel in the district, the schedules provide the following:

1. The names of the landowner thereof as shown on the transfer books in the Story County Auditor's Office;
2. The parcel numbers and descriptions;
3. The number of benefited acres;
4. The classification or percentage of benefits derived relative to a 100% benefit assigned to the tract found to have the greatest benefit;
5. An apportionment of the estimated total project costs for 2021 Annexation and Reclassification or of the assumed dollar amount for the remaining lateral facilities according to our classification of the benefited lands.
6. The ratio of cost to the total cost.

The schedules also show benefits to all State, County, City of Ames, City of Nevada, Road Departments, and all Railroad Properties.

Respectfully submitted,

---

Dave Anderson, Story Co. Landowner

---

Mark Tjelmeland, Story Co. Landowner
