Introduction

The Story County Capital Improvements Plan (CIP) is a multi-year guide to the construction and/or improvement of county facilities and the acquisition of equipment. Through the process of preparing and updating this CIP, the County meets the need for orderly maintenance of the County's physical assets. This CIP is intended to serve as a planning tool and is structured to present meaningful long-range perspective of the County's long-range capital needs and to be used as an implementation tool for the acquisition, development, construction, maintenance, and renovation of public facilities, infrastructure, and capital equipment.

The Story County Board of Supervisors first identified the development of this Plan in the May 2013 Strategic Plan adopted by the Board and have adopted a CIP each following year. The CIP runs on a fiscal year basis – July 1st through June 30th, and defines projects on a five year timeframe.

The CIP adopts the 5-Year Story County Secondary Road Construction Program, updated and adopted annually, by reference.

The following project timeframes are identified in this current CIP:

Current Projects	Those in the current FY cycle (FY21)
Year 1	FY 22: July 2021 – June 2022
Year 2	FY 23: July 2022 – June 2023
Year 3	FY 24: July 2023 – June 2024
Year 4	FY 25: July 2024 – June 2025
Year 5	FY 26: July 2025 – June 2026

Process to Develop CIP

It is anticipated that the CIP is reviewed annually and is updated as necessary. Preparation of the CIP is an interactive process that takes approximately four to six months each cycle. The CIP is developed in a manner consistent with approved County financial policies that set guidelines for the CIP and for the funding of maintenance and replacement projects.

Elected Officials and Department Heads were asked to submit proposed projects in December 2020 in line with the initial budget preparations. County staff members reviewed proposed projects and identified those to recommend to the Board of Supervisors to include in the CIP. As budgets were prepared and submitted, additional projects were included as identified through the Board of Supervisors' worksessions in January 2021.

The projects are categorized beginning on page seven by year as noted above. The CIP is not meant to be a static document - it is intended to help the Board of Supervisors in their budgeting discussions and prioritization. As a guiding document, it may be amended as warranted.

Terms and Definitions

Story County has defined key terms in order to help guide the development of this CIP.

Capital Assets

Capital assets include land, facilities, parks, playgrounds and outdoor structures, special projects from Secondary Roads, pedestrian and bicycle systems, water and sewer infrastructure, technology systems and equipment, and other items of value from which the County derives benefit for a significant number of years.

Capital Projects

Capital projects result in economic activities that lead to the acquisition, construction, or extension of the useful life of capital assets. They have a total project cost in the range of \$25,000 or more; range from construction of new buildings to renovations, additions, conversions, or demolitions of existing buildings; have a useful life of five years or longer, significantly extend the useful life of an asset, or significantly alter the nature and character of an asset (not to include annual asset maintenance costs, annual warranty costs or other ongoing costs.)

The CIP includes four different types of projects: equipment, new project/construction (and project continuation to following years), modification of existing project, and maintenance.

- ◆ **Equipment**

The proposed purchases/lease/rental of equipment, including vehicles, software, hardware, and other applications when the costs exceed \$75,000.

Projects such as new building(s), land acquisition, remodels, and related items costing over \$25,000 are included and identified in one the following three categories:

- ◆ **New Project/Construction**
- ◆ **Modification of Existing Project (includes project extension)**
- ◆ **Building Maintenance**

Projects 4

Projects are listed in order of potential fiscal year in which the project may be undertaken. However, as this is a dynamic document, project schedules may change and be moved up or down on the timeframe, due to many factors, such as budget, staffing, and priorities. Also, estimated amounts and potential funding sources are meant only as guidance in this document. Elected Officials, Department Heads, and the Board of Supervisors identify the projects and funding mechanisms in the annual budget process.

The following is a list of projects that have gone through the CIP process and have been completed:

- Motor Grader Leases
- Phone System Replacement
- Dakin's Lake Expansion

CAPITAL IMPROVEMENTS PLAN

The Board of Supervisors adopted the first Capital Improvements Plan for Story County in February 2014. The steps towards the CIP adoption and implementation started in May 2013, with the identification of the CIP on the Board's Strategic Plan, stating:

Develop Capital Improvements Program

Benefits: Better schedule public improvements that require more than one year to construct. Provide an opportunity for long-range financial planning and management.

The adopted CIP runs on a fiscal year basis – July 1st through June 30th, and defines projects on a five year timeframe. It will be reviewed annually and updated as necessary.
