*STORY COUNTY*
GENERAL NOTES:

Contractor to construct a single 3"x4'x3' pre-cast concrete box culvert on a 0' slope, on 170th St.
over a field drainageway, and grade approaches.

It shall be the contractor's responsibility to provide waste areas or disposal sites for excess material (excavated material or broken concrete) which is not desirable to be incorporated into the work involved on this project. These areas shall not impact wetlands or "Waters Of The U.S." No payment for overhead will be allowed for material hauled to these sites. No material shall be placed within the right-of-way, unless specifically stated in the plans.

Contractor shall maintain access to individual properties during construction, and any associated work shall be considered incidental to this project.

Construction activities, equipment, and materials shall be kept out of the streams, wetlands, or other bodies of water to the maximum extent practicable.

CONTRACTOR'S WORK AREA:

The Contractor's work and material storage area shall be defined by the Contractor and noted to the Engineer. Any area outside the Contractor's work and material storage area that is disturbed by the Contractor shall be repaired to its original condition by the Contractor and no additional payment shall be made for this work.

UTILITY NOTES:

The Contractor shall call One Call at least 48 hours prior to beginning work. Utility companies found to be located within the construction area are listed on the title sheet of these plans. See Section 1107.15 of the Iowa DOT Standard Specifications For Highway And Bridge Construction, Series 2015, regarding utility related responsibilities.

SHOP DRAWING NOTES:

Working drawings and calculations shall be furnished by the Contractor and certified by a licensed engineer in the State of Iowa, and shall be submitted to the Story County Engineer for review and approval. Refer to Section 1105.03 for additional information.

HAZARDOUS MATERIALS NOTES:

It is presumed that there is no asbestos at this site. However, should the occasion arise that asbestos is discovered during bridge demolition, then demolition shall cease and the County will contract with a licensed asbestos contractor to remove any asbestos.

EMERALD ASH BOILER NOTE:

Disposal of all wood material generated as a result of clearing and/or grubbing according to the Iowa Department of Agriculture and Land Stewardship's Emerald Ash Boiler (EAB) Quarantine Order. For more information refer to http://www.сидrstandards.com/epa_regulations.html.

BOVINA BAT HABITAT:

See Iowa DOT Specification 2101.01.

INSTALLATION NOTES:

Precast concrete box culvert sections shall be laid with the groove end of each section up-grade, and the sections shall be tightly jointed. Joint openings between sections shall be as tight as practicable and limited to a maximum of 1 inch openings. The joint in the bottom of the culvert shall be sealed with a flexible water tight 1 inch butyl rope gasket as per Keltner's Ltd. 491.09. Butyl rope gasket shall be installed in accordance with the recommendations of the manufacturer and shall extend vertically 6 inches above the bottom flange. All joints shall be trimmed even on the inside cutting surface. The contractor shall place a 2 foot wide piece of engineering fabric around the top and sides of each precast joint. The fabric shall be centered with 1 foot on each side of the joint. The fabric shall be attached to the walls and top of each section to prevent the fabric from slipping off the joint during backfilling operations. Attachment methods shall be approved by the engineer.

All cuts to be made with a sharp, clean cutting tool used for the purpose of cutting the precast concrete. The engineer must inspect the section for proper alignment. Precast concrete sections shall be adjusted to the proper alignment with the use of 1 inch wide steel strips. All work shall be completed with a mechanical hand compactor. The contractor shall furnish and install lifting hole plugs for each section. Lifting holes shall be plugged with a precast concrete plug, sealed and covered with mortar or mortar.

DESIGN REQUIREMENTS:

The precast concrete box culvert sections shall meet the minimum requirements of ASTM C 1577, Table 1 sections that are designed for combined earth and soil load and AGSHD HL-83 live load conditions. Any precast box culvert designs submitted that vary from the ASTM C 1577 standard, shall be designed and sealed by a professional engineer, currently registered in the State of Iowa. Minimum length of precast sections shall be 4.0 feet. Minimum culvert wall thickness shall be 8 inches.

PRE-CONSTRUCTION NOTES:

The Contractor shall submit details of the proposed precast box sections to the Story County Engineer's office for approval. These details shall include a situation plan, culvert boring cross sections showing steel, and end section detail. The length in linear feet of precast concrete box culvert will be based on the plan quantity.

For the number of linear feet given on the plans, the Contractor will be paid the contract unit price per linear foot. The payment shall be full compensation for furnishing all materials, labor and equipment necessary to complete the work except for items in end sections and Class 20 Excavation.

For each precast box culvert and section installed the Contractor will be paid the contract price for each. The payment shall be full compensation for furnishing all materials (including concrete), labor and equipment necessary to complete the work except for items in precast concrete box culvert and Class 20 Excavation.

Dripwells shall be precast.

The Contractor shall furnish culvert ties for all joints. The male section joints will have one tie on each side of the barrel and the last barrel section will be attached to the end sections with two ties per side. Culvert ties shall be installed in the cast for precast concrete box culvert. Tie rods will be 1 inch in diameter steel and shall meet requirements of ASTM A 709 grade 36 or equal. Culvert ties shall be galvanized or painted according to 2400.30 of the Iowa DOT Standards Specifications. Acrylic paint not required.

Re: Attorney Fee Compensation

To: Story County Board of Supervisors
From: Erin Rewerts, Story County General Assistance Director

Attorney fee compensation for Involuntary Substance Abuse Commitments under Iowa Code section 125.78 indicates “the county shall compensate the attorney at an hourly rate to be established by the county board of supervisors in substantially the same manner as provided in Iowa Code section 815.7”.

Attorney fee compensation per HF 2559, New Subsection 6A- “For appointments made on or after July 1, 2022, the reasonable compensation shall be calculated on the basis of seventy-eight dollars per hour for class “A” felonies, seventy-three dollars per hour for class “B” felonies, and sixty-eight dollars per hour for all other cases.”

I recommend the Board set the attorney fee compensation for involuntary substance abuse commitment based on the rate established in HF 2559.

(Staple attachments to back)
The Story County Sheriff’s Office has been able to maintain its fleet by purchasing seven vehicles per year with the occasional eighth. As additional Deputy positions are added, we will need to increase our annual purchase to eight vehicles with the occasional ninth. In FY23, we planned for seven along with a special purpose vehicle. A Rapid Deployment Vehicle has already been approved and ordered with funds allocated within the general fund (635-99).

Story County budgeted $270,000 in the rural fund (635-10) for five marked patrol vehicles and one task force pickup. Additionally, $45,000 was budgeted in the general fund (635-99) for one unmarked command vehicle.

I acquired quotes from the state bid (Stiver’s Ford) as well as contacted Ames Ford Lincoln. The sales representative at Ames Ford confirmed that they would have to charge a few hundred dollars higher than state bid pricing; and they continue to struggle at getting vehicles, whereas Stiver’s Ford has the advantage by holding the state bid. It should be noted that all dealerships have the opportunity to participate in the state bid process. Additionally, ordering vehicles are time sensitive, as the window to order is very short and unpredictable.

Therefore, I am requesting that we purchase the following vehicles from Stiver’s Ford as quoted under state bid pricing (attached). Vehicle specifications are all consistent with the rest of our Fleet with the exception of the task force pickup, as it has a different purpose.

One (1) 2023 Carbonized Gray Ford Police Interceptor Utility $42,102
SUBTOTAL 635-99 $42,102

Five (5) 2023 White Ford Police Interceptor Utilities with EcoBoost $241,335
One (1) 2023 Carbonized Gray Ford F150 4X4 Pickup: $41,608
SUBTOTAL 635-10 $282,943

TOTAL: $325,045

Although specifications are the same as our last year’s purchase, the cost for each vehicle increased by about $9,000 EACH. This puts us over the budgeted amount within the rural fund by $12,943.

Thank you for your consideration in this matter.

(D) **No Conflicts.** The authorization, execution and delivery of this Agreement, and performance by the Subrecipient of the Project and of its obligations under this Agreement, will not constitute a breach of, or a default under, any law, ordinance, resolution, agreement, indenture or other instrument to which the Subrecipient is a party or by which it or any of its properties is bound.

(E) **SAM.gov Registration.** Subrecipient shall inform the County whether or not they are actively registered with the System for Award Management ("SAM") and confirms that the Unique Entity Identifier ("UEI") or Taxpayer Identification Number ("TINS") listed in Exhibit A is the correct number for the Subrecipient as of the date hereof. If Grantee is not registered with the System for Award Management ("SAM") they will be required to register and provide the County with their Unique Entity Identifier ("UEI") before awarded funds will be released to the Grantee.

(F) **Binding Agreement.** This Agreement is, or when executed and delivered will be, the legal, valid, and binding obligation of the Subrecipient, enforceable in accordance with its terms, subject only to limitations on enforceability imposed in equity or by applicable bankruptcy, insolvency, reorganization, moratorium or similar laws affecting creditors’ rights generally.

3. **GRANT INFORMATION.**

   (A) **Grant Amount.** The County agrees to make and the Subrecipient agrees to accept, on the terms and conditions stated in this Agreement, one Grant in the Amount specified on the Award Letter attached as Exhibit A hereto.

   (B) **Project and Schedule**

   a. Grant Purpose. The Grant is being made solely to finance the project described in the applicable Application. It is understood by Subrecipient that if funding is received to be added to an existing program, recipient must expend existing program funds prior to accessing SLFRF funds.

   b. Grant Expenditure Schedule. The Grant will not pay any costs other than those incurred beginning after January 25, 2022. The final date for expending the County’s SLFRF funds is December 31, 2024. If the project defined in this contract is not going to be able to utilize all funds, the Subrecipient agrees to notify the County is writing prior to June 30, 2024 so that funding may be relocated. Therefore, all grant funds that remain unexpended as of June 30, 2024, must be returned to the County unless, by June 30, 2024, the Subrecipient submits a satisfactory plan to spend the funds by December 31, 2026.

- **Expiration of Offer.** The Grant, and the obligation of the County to disburse such Grant, or any portion thereof, shall expire ninety (90) days from the date of receipt via email of the Award Letter (Exhibit A) by the Subrecipient. The County, in its sole and absolute discretion, may approve one or more extensions to the expiration of the offer of the Grant.

4. **AFFIRMATIVE COVENANTS.**

(A) **Recoupment and Costs.** The Subrecipient acknowledges that it is responsible for compliance with this Agreement and all state and federal law and regulation applicable to the Grant(s) funding source and the Project. Breach of this Agreement and/or failure to comply with such law or regulation may result in all or a portion of the Grant becoming subject to recoupment (including, without limitation, as described in the Application). If subject to recoupment, the County will notify the Subrecipient in writing and the Subrecipient shall promptly, and in any event within 10 days of receiving such notice, return such Grant proceeds (including both any unexpended portion and funds equal to the portion expended) and any interest earnings thereon. In addition, Subrecipient shall be responsible for, and hereby agrees to prompt pay or reimburse the County for all costs incurred by the County, its employees, officers and agents (including without limitation, attorneys’ fees) related to or arising out of such recoupment, including without limitation costs of any related investigation, audit and/or collection efforts.

In the event that any Grant, alone, is for any reason insufficient to complete the applicable Project, the Subrecipient will obtain or make available and apply other funds (including without limitation, by incurring loans or obtaining other grants) in an aggregate amount necessary to ensure completion of each such Project.

(E) **Indemnification.** To the fullest extent permitted by law, the Subrecipient agrees to indemnify and hold harmless the County and all of its employees, officers, and agents (collectively, “Indemnified Persons”) from and against any and all losses, costs, damages, expenses, judgments, and liabilities of whatever nature (including, but not limited to, attorneys’, accountants’ and other professionals’ fees and expenses, litigation and court costs and expenses, amounts paid in settlement and amounts paid to discharge judgments and amounts

Such indemnification includes, but is not limited to, costs arising from third-party claims.

The provisions of this Section shall survive the termination of this Agreement, and the obligations of the Subrecipient hereunder shall apply to losses or claims whether asserted prior to or after the termination of this Agreement. In the event of failure by the Subrecipient to observe the covenants, conditions and agreements contained in this Section, any Indemnified Person may take any action at law or in equity to collect amounts then due and thereafter to become due, or to enforce performance and observance of any obligation, agreement or covenant of the Subrecipient under this Section. The obligations of the Subrecipient under this Section shall not be affected by any assignment or other transfer by the County of its rights or interests under this Agreement and will continue to inure to the benefit of the Indemnified Persons after any such transfer. The provisions of this Section shall be cumulative with and in addition to any other agreement by the Subrecipient to indemnify any Indemnified Person.

(F) **Recordkeeping.** The Subrecipient shall maintain accounts and records with respect to the Project and Grant in accordance with generally accepted accounting principles as issued from time to time by the Governmental Accounting Standards Board (GASB). Subrecipient shall keep and maintain all financial records and supporting documentation related to the Project and Grant for a period of seven years after all Grant proceeds have been expended or returned to the County. Wherever practicable, Subrecipient shall collect, transmit, and store such records in open and machine-readable formats. Subrecipient agrees to make such records available to the County or the United States Treasury upon request, and to any other authorized oversight body, including but not limited to the Government Accountability Office (GAO), the Treasury’s Office of Inspector General (OIG) and the Pandemic Relief Accountability Committee (PRAC). Subrecipient agrees to make such accounts and records available for on-site inspection during regular business hours of the Subrecipient and permit the County, the United States Treasury or any other such authorized oversight body to audit, examine, and reproduce such accounts and records, and to make audits of all contracts, invoices, materials, payrolls, records of personnel, data, and other information relating to all matters covered by this agreement.

The Subrecipient shall permit the County or any party designated by it upon reasonable prior notice to the Subrecipient to examine, visit and inspect the Project and to inspect and, without limiting the generality of the previous paragraph, to make copies of any accounts, books and records of the Subrecipient pertaining to the Project and/or the Grant.

(G) **Single-Audit.** The Subrecipient acknowledges that by accepting the Grant, it is a sub-recipient of federal financial assistance under the federal Single Audit Act of 1984, as amended (the “SAA”). The Subrecipient further acknowledges that to the extent it expends an aggregate of $750,000 in federal awards (including, but not limited to the Grant(s)) in a fiscal year, it will be subject to an audit under the SAA and its implementing regulations at 2 CFR Part 200, Subpart F.
(H) **Performance Measures.** As defined in Exhibit C, Subrecipient acknowledges the applicability of performance measures and that funding is contingent on ongoing compliance with the performance measures.

   (A) **Termination.**

   a. **Termination by the County.** The County, in its sole and absolute discretion, may terminate this Agreement or any one or more Grants hereunder:

(G) **Further Assurances.** Subrecipient agrees that it will, from time to time, execute, acknowledge, and deliver, or cause to be executed, acknowledged, and delivered, such further instruments as may reasonably be required for carrying out the intention or facilitating the performance of this Agreement.

(H) **Third-Party Beneficiaries.** This Agreement is exclusively between the County and the Subrecipient, and does not nor is intended to create any privity of contract with any other party not a party hereto other than the Indemnified Persons, nor to imply a contract in law or fact. The County is not obligated to disburse grant funds on any contract, or otherwise, between the Subrecipient and any other party, nor intends to assume, at any time, direct obligations for payment for work, goods, or other performance under such contracts. The obligation to pay any amounts due under such contracts is solely the responsibility of the Subrecipient. Nothing herein, express or implied, is intended to, or shall confer upon, any other person any right, benefit, or remedy of any nature whatsoever under or by reason of this Agreement between the County, the Subrecipient and the Indemnified Persons.

PROJECT/PROGRAM INFORMATION

**Project/Program Name:**
Collins Economic Relief Program

**Project/Program Purpose:**
The program is broken into two parts:

Part one is the establishment of a meals program. Locally owned Story County restaurants will be contracted to provide meals to families and individuals in the Collins area. This program will replicate a similar program that Collins has already successfully executed (and completed) utilizing CDBG funds.

Part two is the establishment of a utility relief program. Households demonstrating financial need will have access to this assistance program in order to help pay for their utilities. (The minimum water bill in Collins is $94 per month.) This program is designed to help alleviate families and individuals from having to make choices between essentials such as food, power, medicine, etc.

**Requested Story County ARPA funding amount:**
Part One - $54,400  
Part Two - $22,560  
Total Amount - $76,960

Can your project be fully committed (under contract) by December 2024?

☑ Yes

Can your project be completed by December 2026?

☑ Yes
☐ No

Describe the project goals/objectives and how your proposal fulfills a public need that has been created or exacerbated by the COVID-19 pandemic. How will the project achieve these goals (what specific services will be provided)?

Part I:OIE - Meals Program - This program fills several public needs. No other industry in our country has been harder hit than the hospitality industry. Restaurants fall in that category. Those businesses hit hardest are the locally owned businesses that do not have the support structure that comes with being part of a larger corporation. Estimates state that over 110,000 eating and drinking establishments closed in the U.S. last year, with nearly 2.5 million jobs being affected. Our concern is that the continued economic strain put on this industry will have an adverse and irreparable impact on Story County businesses. Places like M's Cafe, Bakery, Comfort Foods (Huxley), The Heart of Iowa, B&B's BBQ (Shell), Sweet Olivia's Bakery + Cafe (Collins), and Hilliard's Cafe (Colt) could become one of the aforementioned statistics unless we can provide the support necessary to help them weather the storm of this pandemic. (The voids left by any such closures would be devastating to some of our County's rural communities.) Our goal is to help provide one of those supports by contracting these businesses to cater meals to our community.

A residual benefit of this program is that it will also provide direct relief to families in our area. Households will have an opportunity to order meals, at no cost, to help supplement their dietary needs, as well as provide respite from the rising cost of food.

Part II:OJO - Utilities Program - Our goal is to establish an emergency fund that will help provide direct relief to families who are struggling to pay their utility bills. Households who can demonstrate financial need will be allowed temporary assistance for up to 12 months of assistance in paying the minimum water bill amount (90%).

Describe how the success of your project/program will be evaluated and what is the desired community impact.

Evaluation of these programs will be measured by participation. In terms of the meals program, the more participation the better. More people means more meals, which in turn means a greater stimulus to our local restaurants. In the end, though, the true measure of success will be the number of local restaurants that have maintained viability by the end of the current pandemic-driven economic crisis.

Measuring how this program impacts households may be a little harder to quantify. We will be taking surveys, though, to help evaluate and adjust the success of this program and the level of relief we are providing. The desired result of this program, of course, is to provide financial respite from the rising costs of food, to help minimize the stress that comes from having to feed a family, and provide the kind of socio-emotional support that will bolster those struggling in our community.

Participation will also help us evaluate the other portion of this funding request, which is the utilities program. Instead of more people, though, success will be measured by decreasing participation. The idea of this program is to provide direct, but temporary, relief to households that are suffering financial stress due to the economic fallout of the COVID-19 pandemic. Temporary relief such as this is designed to help people get back on their feet, catch a breath of fresh air, and help bolster their stamina to better move forward meeting their day to day needs. To help provide quantitative data, though, we will be requiring those participating to provide an entrance and exit survey from the program. Data will be used to help determine the full impact of this project on those households that are using it.
ARPA FUNDS APPLICATION – STORY COUNTY, IOWA

Who will be responsible for performing the work and achieving stated goals and objectives? How is this person qualified?
The Collins Mayor and the Collins City Clerk will be responsible for performing the work and achieving stated goals/objectives. Both the Mayor and Clerk have experience in managing grants, community based programs, meals contracting and distribution, and providing logistical support to organizations providing assistance within our community. A recently successful example can be found in our administration of CDBG grant funding that helped us establish our initial meals program. During said program, all deadlines, paperwork, and other requirements fully met CDBG guidelines and standards.

Has this proposal been approved by your Board of Directors/City Council/Applicable Entity? Please provide a date and form of approval (such as minutes or resolution).
This proposal was approved at a special city council meeting, dated September 27, 2021. The approval of the city council has been documented in the city council meeting minutes and is now public record. A unanimous approval was given.

Are you working in partnership or collaboration with other entities? If yes, identify partners/collaborators. Indicate amount of financial support and in-kind contribution.
We will be working with various restaurants around Story County to include: Mi Casita (Nevada), B Fabulous BBQ (Slater), Comfort Foods (Huxley), Sweet Oaks Bakery + Bistro (Collins), Farmhouse Catering (Nevada), Riverside Camp (Story City), and potentially others. These businesses have worked with us in the past to come up with a discounted menu to provide to our community members. These discounts have provided an approximate 15% cost reduction to our efforts, which would equate to a total of about an $8,000 in-kind contribution to the program’s overall cost.

In addition, local church groups have volunteered to assist in the distribution and delivery of meals, which will help to offset thousands of dollars of potential costs associated with a program like this. Also, the City of Collins will provide administrative and logistical management to both the meals and utilities programs as part of our in-kind contribution.

Describe what would happen if you did not receive 100% of the requested funding from Story County.
Since we have already successfully managed a program similar to the meals program (utilizing CDBG funding), Collins already has an established process in place to move forward immediately. Also, the meals program reaches to other communities and will have a more lasting impact on the long term viability of our County. So, we would prioritize this aspect of our request over the utilities program. In other words, if we are only partially funded for this request, we would use our resources toward the part of the program we know will have a direct impact on as many people as possible, the meals program.

If this is an ongoing project, what is the sustainability plan if ARPA funding is not available to provide ongoing program/project continuity?

This program has a defined beginning and end date. Neither will be extended past the calendar year of 2022. Neither will require continued support of sustainability beyond that point.

Describe the project/program timeline and milestones.

Upon receipt of funds, Collins will begin both programs within a very short amount of time (by January 2022.) The meals program will be completed by June of 2022, while the utility program will continue through the course of 2022, to end by December of that year.

Describe how this project would make a significant, long-term difference in the quality of life for Story County residents.

Providing financial stimulus to our Story County businesses will help ensure their long term viability. Smaller towns are at risk, due to the economic fallout of the pandemic, of losing, in some cases, their ONLY source of hospitality. Supporting these businesses will help ensure the hard earned gains that these communities have attained in trying to revitalize their commercial districts. Investing in these businesses now will help guarantee their longevity for the future. Losing these businesses would have a long term and highly detrimental impact on Story County’s rural population and the communities they support.

Additional Information:

Collins has had great success in developing and executing programs and initiatives that provide direct support to the people of Story County. This program, especially the meals portion, is an example of Collins reaching and creating partnerships with other groups to not only provide for our community, but to create a positive impact on other communities as well. In the end, it is the sincere motivation of Collins to have done all it can do to ensure that small towns like ours still have access to the goods and services that were available prior to the COVID-19 pandemic. This program is our way of doing that.

We also believe that the restaurants are not the only entities that need support. Folks need lifelines to help guarantee their ability to navigate the ongoing economic impact of COVID-19. As a community, we have a vested interest in helping to facilitate such lifelines, and as a county, Story County has the capacity to give us to tools to make it happen.

Thank you for your time and support.

ARPA FUNDS APPLICATION – STORY COUNTY, IOWA

Can your project be fully committed (under contract) by December 2024?

☑ Yes

☐ No

Can your project be completed by December 2026?

☑ Yes

☐ No

Describe the project goals/objectives and how your proposal fulfills a public need that has been created or exacerbated by the COVID-19 pandemic. How will the project achieve these goals (what specific services will be provided)?

Like most rural communities in Iowa, Collins is trying its best to manage its aging infrastructure. This includes its wastewater processing system and sewer lines. A number of years ago, Collins was required by the IDNR to upgrade these systems. So, we completely redesigned and built a new lagoon, as well as started the lining process of our sewer lines. Unfortunately, we’ve only been able to complete about half of the sewer lines. With this grant request, we intend to finish the lining project. Doing so will help ensure the people of Collins have a safe and sanitary wastewater system that is in full compliance with IDNR and EPA standards.

The need for this project was not created by the COVID-19 pandemic, but the financial hurdles in completing it have been exacerbated by the virus. These kinds of projects are typically funded by raising taxes or adding fees to monthly water bills. Unfortunately, the current economic climate is creating a financial hardship for many of our constituents. Increasing taxes or fees at this time would put an unwelcome burden on the people we serve.

In addition, our plan is to go beyond the curb and provide direct relief to property owners. We know that homeowners are struggling right now. Between inflation, gas prices, and the cost of building materials (all due to the COVID-19 pandemic), it would be very difficult for homeowners to absorb the unplanned (and costly) repairs associated with unexpected repair needs. Our project will provide these owners not only with a televised inspection, but also affordable maintenance options if there is a need. This opportunity will help give owners a clearer picture of any potential threats to their system, as well as provide them with affordable steps to manage those threats before they become financially unmanageable.

Describe how the success of your project/program will be evaluated and what is the desired community impact.

The success of our project will be based upon contract fulfillment and established deadlines for completion.

The desired impact on the community is as follows:

1.) Provide community members a safe and sanitary wastewater system.

2.) Provide community relief by helping homeowners with an inspection program that will help them mitigate unexpected repairs and unnecessary financial burdens during this time of pandemic-induced economic instability.

3.) Provide the City important 181 data to help manage IDNR compliance, protecting the City from being mandated with larger, more expensive repairs and causing more financial burden on taxpayers.

4.) A final desired impact of this project is something that hasn’t been explained in this request yet. Collins has a water loss issue that is way above the industry standard. Last month alone, we tracked a 48% water loss, and all efforts to this point have not allowed us to provide permanent relief. Water losses drive water rates, and those rates are at risk of going up even higher than they are. The lining work, as well as the residential inspection program will allow much needed televising... which we believe will help us locate water leaks that are undetected because they are infiltrating our wastewater system. Detecting these leaks would be a huge benefit to Collins and could help reduce water bills for folks already struggling to meet their obligations.
Who will be responsible for performing the work and achieving stated goals and objectives? How is this person qualified?
The Mayor, City Clerk, our Public Works Director, and MSA Engineering. All parties involved have had extensive experience in managing the various aspects of large-scale infrastructure programs. Also, we will be contracting the work to be done by a reputable and established company (based upon bidding requirements established by the State of Iowa) that specializes in wastewater inspection and repair.

Has this proposal been approved by your Board of Directors/City Council/Applicable Entity? Please provide a date and form of approval (such as minutes or resolution).
Yes. This application was approved by the Collins City Council during a special meeting on September 27, 2021.

Are you working in partnership or collaboration with other entities? If yes, identify partners/collaborators. Indicate amount of financial support and in-kind contribution.
We are not working with any partners, but we have received financial support to help pay for the cost of upgrades we have already completed. These funds include I-Jobs and CDBG grants, and an active SRF Loan. Collins has also contributed in-kind contributions that include maintenance and administration. The grants went toward the new lagoon construction. The SRF Loans went toward covering the cost deficit after grants, as well as fund the first half of the wastewater lining project.

Describe what would happen if you did not receive 100% of the requested funding from Story County.
Collins would be forced to divert funding from other projects to cover the costs, scale back the project, or consider rate and/or fee increases to residents. Or, the City would attempt an application for CDBG grant assistance to help cover the portion that Story County is unable to cover.
ARPA FUNDS APPLICATION – STORY COUNTY, IOWA

If this is an ongoing project, what is the sustainability plan if ARPA funding is not available to provide ongoing program/project continuity?

This project has a definitive beginning and end date, based upon receipt of funding and established deadlines for contract completion. There is no sustainability plan tied to this request.

Describe the project/program timeline and milestones.

This project/program timeline is dependent upon Story County funding.

Story County Award - November 2021

Contracting of MSA Engineering to let bidding for project - January 2022

Bid Acceptance - April 2022

Residential Inspections completed by July 2022

Lining Project completed by September of 2022

Describe how this project would make a significant, long-term difference in the quality of life for Story County residents.

Collins is part of Story County, and making this investment will provide long-term and verifiable improvements to our community's infrastructure. These improvements will help guarantee a better, safer, and cleaner wastewater system for all our citizens to utilize.

Also, this upgrade (and service) will help alleviate the financial burdens that come from the enormous costs associated with these kinds of projects. Doing so will help ensure that those burdens aren't shifted to homeowners. So, instead of paying higher taxes or an increased water bill, folks will be able to spend their money in ways that help stimulate our local economies... thus providing the kind of supports that Story County businesses need to ensure their long term viability and an ongoing presence within our communities.

Are you accessing alternative funding sources? If yes, please list sources.

☐ Yes Sources
Collins has recently completed an LMI Survey, and has established itself to be qualified for CDBG funding. We have already completed a vast majority of the overall wastewater improvements in town. The funding already raised could be described as our match investment.

Additional Information:

Collins has established itself as a leader in rural community development and revitalization. We have gone to great lengths over the last decade to tackle projects that have made lasting and impactful changes to Story County. This project is an extension of those efforts. Funding this work will be a great things for Collins... provide relief and opportunity to our citizens... and be an investment in the long-term viability of SE Story County.

Also, ACCU-Jet is the only wastewater repair and maintenance program in the State of Iowa offering a community wide residential inspection program. This is a pilot program and to help establish its success, ACCU-Jet is offering a 37.5% discount in the cost of the work. This “in-kind” match equals $16,500 in total cost savings. (Instead of $200 x 220 homes, the cost is $125 x 220 homes.)

Finally, Collins has already invested $300,000 into lining our wastewater system. This helped us complete a large portion of the town. We are requesting the additional $250,000 it will take to complete the work.
**Project Budget**

Please provide a line item detailed budget for the project. Please specify whether your various match items will be cash or in-kind. **Please see example budget on the following page.**

The provisions of this Section shall be cumulative with and in addition to any other agreement by the Subrecipient to indemnify any Indemnified Person.

(F) Recordkeeping. The Subrecipient shall maintain accounts and records with respect to the Project and Grant in accordance with generally accepted accounting principles as issued from time to time by the Governmental Accounting Standards Board (GASB). Subrecipient shall keep and maintain all financial records and supporting documentation related to the Project and Grant for a period of seven years after all Grant proceeds have been expended or returned to the County. Wherever practicable, Subrecipient shall collect, transmit, and store such records in open and machine-readable formats. Subrecipient agrees to make such records available to the County or the United States Treasury upon request, and to any other authorized oversight body, including but not limited to the Government Accountability Office (GAO), the Treasury’s Office of Inspector General (OIG) and the Pandemic Relief Accountability Committee (PRAC). Subrecipient agrees to make such accounts and records available for on-site inspection during regular business hours of the Subrecipient and permit the County, the United States Treasury or any other such authorized oversight body to audit, examine, and reproduce such accounts and records, and to make audits of all contracts, invoices, materials, payrolls, records of personnel, data, and other information relating to all matters covered by this agreement.

The Subrecipient shall permit the County or any party designated by it upon reasonable prior notice to the Subrecipient to examine, visit and inspect the Project and to inspect and, without limiting the generality of the previous paragraph, to make copies of any accounts, books and records of the Subrecipient pertaining to the Project and/or the Grant.

(G) Single-Audit. The Subrecipient acknowledges that by accepting the Grant, it is a sub-recipient of federal financial assistance under the federal Single Audit Act of 1984, as amended (the “SAA”). The Subrecipient further acknowledges that to the extent it expends an aggregate of $750,000 in federal awards (including, but not limited to the Grant(s)) in a fiscal year, it will be subject to an audit under the SAA and its implementing regulations at 2 CFR Part 200, Subpart F.
(H) **Performance Measures.** As defined in Exhibit C, Subrecipient acknowledges the applicability of performance measures and that funding is contingent on ongoing compliance with the performance measures.

   (A) **Termination.**

   a. **Termination by the County.** The County, in its sole and absolute discretion, may terminate this Agreement or any one or more Grants hereunder:

PROJECT/PROGRAM INFORMATION

Project/Program Name:
Collins Water Infrastructure Project

Project/Program Purpose:
The purpose of the project is to address the needs of our City’s water infrastructure. Concerns with that infrastructure are based upon the following concerns:

Collins has a water loss rate of approximately 48%. (Industry standards allow an acceptable rate of loss to be between 10% and 20%.) Any such losses, unfortunately, are being passed on to the consumer... which in this case are the citizens of Collins.

Also, Collins has been operating for many years with undaraized piping, providing limited water pressure and unable to accommodate residential expansion.

Finally, the City of Collins is working to support improvements being made to the athletic fields of the Collins-Maxwell CSD. Due to irrigation needs, our community softball park needs upgrades in the water lines that go to it. These improvements will allow us to also upgrade the entire nearby block, as well as place a new fire hydrant (for better emergency response).

Requested Story County ARPA funding amount: $340,000

Under which approved ARPA usage requirement does your proposed concept fall? Please check all applicable.

☐ Support the public health response

☐ Address negative economic impacts caused by the public health emergency

☑ Invest in water, sewer, and broadband infrastructure
ARPA FUNDS APPLICATION – STORY COUNTY, IOWA

Can your project be fully committed (under contract) by December 2024?

☑ Yes
☐ No

Can your project be completed by December 2026?

☑ Yes
☐ No

Describe the project goals/objectives and how your proposal fulfills a public need that has been created or exacerbated by the COVID-19 pandemic. How will the project achieve these goals (what specific services will be provided)?

Goal #1: Make residential improvements to water infrastructure to the top 10% of our most concerning households as it relates to aging and leak-prone water lines.

Goal #2: Add a new fire hydrant and 6 inch water line up to our local school's athletic complex. These improvements will also allow us to update some of the oldest (and undersized) water lines in town. This will help us locate and eliminate potential leaks and provide better service to community members.

Goal #3: Replace the water lines on 4th avenue from a 4 inch line to a 6 inch (and in some places a 12 inch line) to better serve citizens on the east side of our town. These improvements will also help us locate and fix potential leaks, as well as allow the City to support residential expansion toward the east of Collins.

The biggest benefit to this work is that it will help Collins provide repairs and upgrades to homes in areas that are designated as being a part of an LMI residential area. Many of these households have been hit hardest by the economic strain that the COVID-19 pandemic has ushered in. Additionally, the detection and elimination of water leaks could have a dramatic impact in lowering water bills and aiding households that are currently struggling with the cost of living increases that have been exacerbated by the COVID-19 pandemic.

Describe how the success of your project/program will be evaluated and what is the desired community impact.

This project's desired impact to the City of Collins is:

1.) The repairs significantly lower our town's water loss percentage.
2.) The repairs lower the cost of water and alleviate people's struggle to pay the current rates.
3.) Improvements adequately support the needs of the Collins-Maxwell CSD’s athletic complex upgrades.
4.) Water pressure is improved for households in Collins.
5.) Collins is in a stronger position to support growth and expansion on the east side of our town.

In terms of measuring our success, we will closely evaluate whether or not the above objectives have been met, if all established deadlines have been met for project completion, and if we have been able to complete the work within our determined budget.
ARPA FUNDS APPLICATION – STORY COUNTY, IOWA

Who will be responsible for performing the work and achieving stated goals and objectives? How is this person qualified?
The Mayor, City Clerk, our Public Works Director, and City Council will all work together to ensure all achieved goals and objectives are met. Our team has a long and successful tradition of completing major infrastructure projects to include items such as building our new lagoon, the revitalization of our Main Street, grant administration, and stormwater improvements. Our PWD also has over 20 years experience in excavating, operating heavy equipment, and water line installation.

We will utilize the services of MSA Engineering, as well. MSA has a well established track record. MSA is also one of the engineering services that Story County uses.

Finally, we will only consider bids for work that are made by reputable companies that have experience and expertise in areas that pertain to this project.

Has this proposal been approved by your Board of Directors/City Council/Applicable Entity? Please provide a date and form of approval (such as minutes or resolution).
Yes. The City Council of Collins approved this request at a Special Meeting on September 27, 2021.

Are you working in partnership or collaboration with other entities? If yes, identify partners/collaborators. Indicate amount of financial support and in-kind contribution.
We will be working with the Collins-Maxwell CSD and MSA Engineering. Collins-Maxwell will be sharing a portion of one of the project components. The City of Collins will be providing in-kind contributions to this project through the use of our equipment, employee man hours, administrative capabilities, and other sources of labor needed to get the work done.

Describe what would happen if you did not receive 100% of the requested funding from Story County.
Collins would delay portions of this project, based upon the amount of funding that we receive. Those delays will be dependent on the support of other funding (such as CDBG), and/or the dismissal of our current bond obligations through our TIF revenue... which is expected to be paid off within the next 2 years.

Considering that this project is compartmentalized, Collins will be able to make excellent use of whatever funds we are provided... and complete those components within any and all timelines established by the County. Logically, we will complete the smaller components first, then turn our attention to making improvements along 4th Ave for as many linear feet that our funding will allow for.
ARPA FUNDS APPLICATION – STORY COUNTY, IOWA

If this is an ongoing project, what is the sustainability plan if ARPA funding is not available to provide ongoing program/project continuity?

This project has a definitive beginning and end date, based upon receipt of funding and established deadlines for contract completion. There is no sustainability plan tied to this request.

Describe the project/program timeline and milestones.

MSA will begin their engineering services in January of 2022, with a completion date of March of 2022.

Permits to the IDNR will be requested upon completion of MSA’s design and planning phase.

Based upon final cost projections and funding available, Collins will either begin improvements in house... or open the bidding window for interested contractors by April of 2022.

In house or contracted work will be completed for all phases by the summer of 2023.

Describe how this project would make a significant, long-term difference in the quality of life for Story County residents.

We are not only addressing utility costs for people in Collins, but we are also freeing up needed capital that could be used to support the local economy and other Story County businesses.

Our improvements are also designed to support growth and long-term viability of our community. These upgrades will allow us to promote residential expansion, provide more affordable housing within Story County, and potentially increase tax revenues.

Residential growth will likely attract a larger population, added businesses, and contribute to the long term viability of not just Collins, but SE Story County as well.

Finally, these upgrades will significantly enhance water service for the people in our community, as well as support improvements to the Collins-Maxwell CSD. These improvements will add fire hydrants, which can be better used by our town’s emergency management services to help mitigate the risk of fire.

At the date of execution hereof, one Application is attached hereto as Exhibit B and made a part hereof. From time to time after the date hereof, the Subrecipient may apply for, and the County may agree to make, additional Grants pursuant to additional Applications. In such event, such additional Applications shall become a part of new Agreement. (E) **Headings.** The headings and sub-headings contained in the titling of this Agreement are intended to be used for convenience only and do not constitute part of this Agreement.

(F) **Severability.** If any term, provision or condition, or any part thereof, of this Agreement shall for any reason be found or held invalid or unenforceable by any governmental agency or court of competent jurisdiction, such invalidity or unenforceability shall not affect the remainder of such term, provision or condition nor any other term, provision or condition, and this Agreement shall survive and be construed as if such invalid or unenforceable term, provision or condition had not been contained therein.

The County is not obligated to disburse grant funds on any contract, or otherwise, between the Subrecipient and any other party, nor intends to assume, at any time, direct obligations for payment for work, goods, or other performance under such contracts. The obligation to pay any amounts due under such contracts is solely the responsibility of the Subrecipient. Nothing herein, express or implied, is intended to, or shall confer upon, any other person any right, benefit, or remedy of any nature whatsoever under or by reason of this Agreement between the County, the Subrecipient and the Indemnified Persons.

☐ Yes (Please note: funds eligibility depends on the intended use of the funds and compliance with Iowa Code requirements. Please continue completing the application and a preliminary determination of eligibility will be communicated to you upon submission.)

☒ No

What is the intended purpose/use of the funds?

The intended purpose for these funds support PHC's mission of offering access to medical, behavioral health, and dental care for underserved and vulnerable populations, as they continue to navigate through the pandemic.

According to the CDC, "Many factors, such as poverty and healthcare access, are intertwined and have a significant influence on the people's health and quality-of-life. Racial and ethnic minority populations are disproportionately represented among essential workers and industries, which might be contributing to COVID-19 racial and ethnic health disparities. Poverty is one of the social determinants of health that put low income people at increased risk of getting sick and dying from COVID-19. Living in crowded conditions can make it very difficult to separate when you are or may be sick.”

The importance of nonprofit organizations like PHC having the ability to provide the care needed cannot be understated. The CDC goes on to state, "People living in poverty, and/or from racial and ethnic minority groups are disproportionately affected by lack of access to quality healthcare, health insurance, and culturally and linguistically responsive health care. Inequities in treatment may result in distrust of government and healthcare systems. Such barriers increase risks for poor health and health outcomes by limiting health promotion, disease and injury prevention, and condition management activities.”

PHC provides access to Covid-19 testing, vaccination, and outreach to the community about the safety and efficacy of Covid-19 vaccines. Health care is provided in a culturally competent, and sensitive manner with interpreters or language line available. Insurance or lack thereof is not a barrier to care at PHC. No one is ever turned away due to inability to pay.

PROJECT/PROGRAM INFORMATION

Project/Program Name:
PHC Dental Clinic Support & Medical Clinic Office Renovation

Project/Program Purpose:
PHC opened dental clinic in March of 2021 and is the only safety net dental provider in the county, and one of two dental providers who accept patients who are on Medicaid.

PHC’s project expands access to dental and medical care, including Covid related testing and vaccinations. The demand is high for care as many people put off routine healthcare visits and chronic illness care during the pandemic.

Our goal, with additional dental support staff and the reconfiguration of space, is to give vulnerable populations greater access to Covid care, education, and vaccinations as well as increase our capacity to serve medical and dental needs in the community.

Requested Story County ARPA funding amount:

$525,093.72

Under which approved ARPA usage requirement does your proposed concept fall? Please check all applicable.

☑ Support the public health response

☐ Address negative economic impacts caused by the public health emergency

☐ Invest in water, sewer, and broadband infrastructure
Can your project be fully committed (under contract) by December 2024?

☑ Yes
☐ No

Can your project be completed by December 2026?

☑ Yes
☐ No

Describe the project goals/objectives and how your proposal fulfills a public need that has been created or exacerbated by the COVID-19 pandemic. How will the project achieve these goals (what specific services will be provided)?

One of the many unfortunate consequences of the pandemic is patients put off routine and emergent dental care. This is further exacerbated in Story County as the safety net dental provider serving the community prior to PCH, closed its doors in March of 2020. The community went an entire year without a safety net provider to serve vulnerable populations. The need is great and the demand for care is high, in the best of circumstances, due to the limited availability of dental offices who accept Medicaid patients. The pandemic amplified the need for greater access to dental care.

Our request includes adding two staff, purchase of pediatric and other dental equipment, IT equipment, patient education and outreach materials, rent assistance, and modification of physical space to make room for the two additional team members. The addition of a clinic operations specialist (COS) who can assist with patient registration, scheduling, and reminders as well as a health benefits specialist (HBS) who can support patients who need assistance with enrolling in Medicaid, insurance or other benefits they may be eligible to receive.

An additional need is educational materials for our OB patients and outreach/marketing to patients with chronic illnesses. Another consequence generated by the pandemic was fear of going out, and especially to a doctor’s or dentist’s office where many thought they could be exposed to Covid-19. The result was a steep decline in routine, preventative medical care.

PCH also requests assistance with the PCH Ames Clinic rent. The pandemic found us with many unexpected expenses, such as adding a Covid testing and vaccine teams, purchase of PPE, needles, infection control means/equipment and other supplies that had not been budgeted. The payment for rent would help offset these expenses.

Describe how the success of your project/program will be evaluated and what is the desired community impact.

The success of the dental clinic support program will be measured by the following:

- the amount of children we can serve
- the number of underserved children & adults who are able to access regular preventative dental care, access for emergency care, and oral health education

The community impact is a healthier population. Healthy teeth and gums can reduce disease. Regular visits to a dental professional, can help reduce the risk of such diseases like dental decay and gum disease. According to the Oral Health Foundation, *Gum disease, the bacteria from our mouth can get into the bloodstream. It then produces a protein which causes the blood to thicken. This means that clots are more likely to form, and the heart is not getting the nutrients and oxygen it needs, resulting in increased risk of a heart attack. Decay and gum disease also result in tooth loss. Research has found that the number of teeth we have is strongly linked to how long we will live. Those with 20 teeth or more at the age of 70 had a considerably higher chance of living longer than those with less than 20 teeth.*

Oral Health Foundation: https://www.dentalhealth.org/healthysmile

The additional staff and reconfiguring of our office space will allow for greater access for patients to receive care as well as access to enrollment in Medicaid or other benefits. Educational materials and marketing efforts will increase positive health outcomes for mom and baby as well as assist patients living with a chronic illness. Our behavioral health team has seen a significant uptick in patients and the space renovation would allow for an additional office for these visits.

The success of this will be measured by:

- the number of underserved children and adults who are able to receive routine medical care, COVID vaccine, testing, and/or education
- the number of behavioral health visits
ARPA FUNDS APPLICATION – STORY COUNTY, IOWA

Who will be responsible for performing the work and achieving stated goals and objectives? How is this person qualified?

Our dental team will be responsible for delivering care and education, including the dentist, hygienists, and dental assistants. Hygienists are under supervision of a dentist and provide patient care in accordance with the Iowa Dental Practice Act and the rules and regulations of the Iowa Board of Dental Examiners. Dentists must meet be licensed and meet requirements defined by the Iowa Dental Board.

Health benefits and clinic office specialist roles have required training and competencies to meet, and are supervised by clinic administrators who can step in to assist if need be. Clinical staff are supervised by the Medical Director and Behavioral Health Director.

The Chief Operating Officer and Facilities Director will oversee the construction needs to accommodate the additional staff. Equipment purchases will also funnel through the Chief Operating Officer.

Has this proposal been approved by your Board of Directors/City Council/Applicable Entity? Please provide a date and form of approval (such as minutes or resolution).

Yes, PHC's Board has approved this application.

Are you working in partnership or collaboration with other entities? If yes, identify partners/collaborators. Indicate amount of financial support and in-kind contribution.

PHH is not working in partnership or collaboration with other entities.

A routine practice at PHC is working closely with other nonprofits in Story County to refer our patients to services they may offer, and receive patients or clients they may refer to us.

PHC receives some funding through Story County ASSET to support the operations of the dental clinic.

Describe what would happen if you did not receive 100% of the requested funding from Story County.

If not funded, equipment purchases will not be made and positions will not be hired. Construction will not occur.

The rental assistance would alleviate financial stress the Ames clinic experienced (low patient census, many more self-pay patients, challenges with staffing, expensive PPE and other needed supplies). If this portion is not funded, PHC will continue to pay rent of course, but our financial situation will be more precarious.
ARPA FUNDS APPLICATION – STORY COUNTY, IOWA

If this is an ongoing project, what is the sustainability plan if ARPA funding is not available to provide ongoing program/project continuity?

The requests for equipment do not require ongoing funding as they will be one time purchases.

When opening up a new clinic, all patients are new patients. New patients take more time to see from both a clinical and paperwork perspective. Due to how FQHCs are reimbursed, we do not see increased reimbursement for new patients (it’s the same amount for new and returning).

Because all patients are new patients at Ames dental, the visits require more clinical and nonclinical staff time. Because our dental providers and support staff spend more time with each patient, we are unable to see as many patients as our established clinics. More staff to address the non-clinical work would minimize the impact to the clinical providers. The positions should be self-sustaining after year two as our volume shifts to more returning patients and less new patients (more patients means more revenue for “same” amount of work.)

The physical space renovation will be one time purchases and ongoing expenses do not apply.

Describe the project/program timeline and milestones.

If approved, positions would be posted immediately and equipment to support their work purchased. All other IT equipment would also be purchased upon receipt of the award.

Renovation and construction would commence in June of 2022 and likely be completed by August of 2022.

Dental equipment, patient education, and marketing collateral would be ordered upon receipt of the funding as well.

Rent would be paid on a monthly basis, effective once the grant is awarded.

Describe how this project would make a significant, long-term difference in the quality of life for Story County residents.

The quality of life for Story County’s vulnerable population will improve as they will have healthier mouths and gums. Instilling good oral health habits routine dental care, and oral health education in parents and their children is a sound, long term investment in healthier citizens.

The American Dental Association reports 80% of emergency room dental visits are conditions that are preventable. Routine preventative care will alleviate patients from ending up in the ER. Visits to the ER for dental health care cost three times as much as a visit to the dentist, averaging $749 if the patient isn’t hospitalized, amounting to $1.5 billion annually (one-third of which is paid by Medicaid).

Source: https://www.ada.org/-/media/ADA/Public%20Programs/Images/ER_Referral_Infographic_Full.png?la=en

A pre-pandemic statistic from the ADA states 48% of low income people report seeking a dentist in the last year. 20% have not seen a dentist in over five years. This lack of care can lead to long term issues and strain on community services. Adults who do not access dental care are also likely to have children who do not either. The importance of regular care and oral health education is critical for children to learn.

Source: https://www.ada.org/-/media/ADA/Public%20Programs/Files/ADH%20PDFs/ADA_Dental-Divide-in-America-Infographic.pdf

The changes to the physical space will also allow for greater patient access. Appropriate space to accommodate our staff to do their work and the additional staff to assist patients will serve the community as the need for our services continues to grow.

According to the Kaiser Family Foundation, “people with lower incomes are generally more likely to experience and report major negative mental health impacts from worry or stress over the coronavirus. In December 2020, 35% of those earning less than $40,000 reported experiencing a major negative mental health impact.” The report goes on to say, “The pandemic’s mental health impact has been pronounced among the communities of color also experiencing disproportionately high rates of COVID-19 cases and deaths.” These statistics underscore the need for access to not only medical and dental care, but to mental healthcare as well. PHC’s behavioral health team is poised to provide greater access to care, but they need the space to do it.

PROCLAMATION
Attendance Awareness Month

September 2022

WHEREAS, chronic absence, missing 10% or more of school, alerts schools, community partners and families that one or more positive conditions for learning are not in place,

WHEREAS, Nationally, more than 16 million students miss 10 percent of the school year in excused and unexcused absences every year, double the rate from before the COVID-19 pandemic; and

WHEREAS, by sixth grade, chronic absence, missing 18 or more days of school, is a leading indicator of dropping out of high school, even more than academic performance; and,

WHEREAS, showing up for school is an opportunity for students to build routines that can create a sense of safety and belonging, increase engagement and develop trusting relationships with peers, teachers and school staff that increase engagement and motivate them to participate in learning; and,

WHEREAS, improving attendance and reducing absenteeism takes schools, families and community partners working together to identify and address factors contributing to students missing school, particularly a lack of digital access, mental and physical health services and access to basic economic supports including food and housing; and,

WHEREAS, research has shown that school attendance improves when students and parents are engaged with positive strategies through partnerships between schools and the community and research found, even before the pandemic, that families faced significant barriers in getting their children to school or lacked the knowledge that showing up nearly every day to school was crucial to academic achievement; and,

NOW, THEREFORE, BE IT RESOLVED THAT, We, the Story County Board of Supervisors, do hereby proclaim September 2022 as Attendance Awareness Month in Story County and we hereby commit to focusing on reducing absenteeism and addressing the factors that cause students to miss school in order to ensure all children an equitable opportunity to learn, grow and thrive academically, emotionally and socially. We recognize that we must work together to engage students and families and send the message that learning can and must continue, whether students participate in person, remotely or through blended approaches.
