

## DEPARTMENT RECOGNITION

**We are a department of 17 team members, 10 on 1st shift and 7 on 2nd shift.**

**4 members have over 20 years with Story County**

**Over half the department has been with Story County over 10 years**

Facilities Management is the behind the scenes department, a lot of our day to day is focused on keeping the buildings clean, safe and running smooth. We accomplish this with good Preventative Maintenance and scheduled tasks. The majority of building systems issues are discovered and remedied before many of the employees are aware of a problem. Everyone on the team takes a lot of pride in the services they provide.

Some of the larger projects this last year:

- Added Panic Alarm systems to multiple county facilities
- Continued large L.E.D. lighting upgrade at all county buildings
- Finished up with the remodel of the Animal Control building
- Currently working on remodeling the Multi-purpose room at McFarland Park.

# FACILITIES MANAGEMENT

**The average years of service is 12 years.**
