STORY COUNTY IOWA RESOLUTION OF THE BOARD OF SUPERVISORS RESOLUTION NO. 07-01

WHEREAS, the Story County Board of Supervisors, in conjunction with the Boone County Board of Supervisors, Ames City Council and Gilbert City Council, identified the need for land use planning within the two-mile fringe of the City of Ames; and

WHEREAS, the planning staffs from Story County, Boone County, City of Ames and City of Gilbert have been preparing planning documents to develop a land use plan for the two-mile area of the City of Ames, beginning such work in 1999; and

WHEREAS, the Story County Planning and Zoning Commission recommended approval of the proposed Ames Urban Fringe Plan subject to revisions on March 22, 2006, to the Story County Board of Supervisors;

WHEREAS, the Board of Supervisors has reviewed the proposed Ames Urban Fringe Plan at public hearing held on July 11, 2006, all interested parties having been heard;

AND WHEREAS, it is the opinion of the Board of Supervisors of Story County, Iowa, that it is advisable and in the best interest of Story County, Iowa, and of all persons concerned, that said the Board of Supervisors adopt the proposed Ames Urban Fringe Plan as recommended by the Story County Planning and Zoning Commission.

NOW, THEREFORE, BE IT RESOLVED that the proposed Ames Urban Fringe Plan be granted, subject to the following revisions:

- ☐ The area along Stagecoach Road currently zoned R-1 Residential be designated "Rural Residential" on the Land Use Framework Map.
- ☐ The residentially-zoned area of the Ames Golf and Country Club be designated "Rural Transitional Residential" on the Land Use Framework Map.
- ☐ The area designated as the Ames-Gilbert Agricultural Preservation Area is a unique area worthy of additional study and consideration. The Commission recommends that this area be identified on the Land Use Framework Map as one with unique circumstances, and that a special area study defining future land uses be undertaken, establishing objectives and policies specific for this area. Until this study is completed, land use decisions would be based on existing regulations of Story County, and, as applicable, the cities of Gilbert and Ames.

**STORY COUNTY IOWA
RESOLUTION OF THE BOARD OF SUPERVISORS
RESOLUTION NO. 07-02**

WHEREAS, the Story County Board of Supervisors, in conjunction with the Boone County Board of Supervisors, Ames City Council and Gilbert City Council, identified the need for land use planning within the two-mile fringe of the City of Ames; and

WHEREAS, the planning staffs from Story County, Boone County, City of Ames and City of Gilbert have been preparing planning documents to develop a land use plan for the two-mile area of the City of Ames, beginning such work in 1999; and

WHEREAS, the Story County Planning and Zoning Commission recommended approval of the proposed Ames Urban Fringe Plan subject to revisions on March 22, 2006, to the Story County Board of Supervisors;

WHEREAS, the Board of Supervisors reviewed the proposed Ames Urban Fringe Plan at public hearing held on July 11, 2006, all interested parties having been heard;

WHEREAS, it is the opinion of the Board of Supervisors of Story County, Iowa, that it is advisable and in the best interest of Story County, Iowa, and of all persons concerned, that said the Board of Supervisors adopt the proposed Ames Urban Fringe Plan as recommended by the Story County Planning and Zoning Commission;

WHEREAS, the Story County Board of Supervisors adopted Resolution No. 07-01 on July 11, 2007, adopting the Ames Urban Fringe subject to the following revisions:

- ☐ The area along Stagecoach Road currently zoned R-1 Residential be designated "Rural Residential" on the Land Use Framework Map.
- ☐ The residentially-zoned area of the Ames Golf and Country Club be designated "Rural Transitional Residential" on the Land Use Framework Map.
- ☐ The area designated as the Ames-Gilbert Agricultural Preservation Area is a unique area worthy of additional study and consideration. The Commission recommends that this area be identified on the Land Use Framework Map as one with unique circumstances, and that a special area study defining future land uses be undertaken, establishing objectives and policies specific for this area. Until this study is completed, land use decisions would be based on existing regulations of Story County, and, as applicable, the cities of Gilbert and Ames.

AND WHEREAS, on July 17, 2006, the city councils of Ames and Gilbert both approved the Ames Urban Fringe subject to the revisions noted above, and added the following two revisions:

- ☐ Natural Area West of Ada Hayden Heritage Park. The Natural Area designation in this area was not intended to show precise boundaries, but rather to indicate the general need for protections in this area. This designation covered all of a property parcel owned by the Sturges family. Ames proposed that the size of this Natural Area be reduced and coincide more closely with natural resource factors described as criteria on page 35 of the Plan. The remaining property would have a designation as Priority Transitional Residential.
- ☐ Agriculture/Subsurface Mining. Ames proposed that the boundary of this designation, which is located along Riverside Drive and Dayton Road, be adjusted to reflect the current agricultural uses of property and extent of current mining agreements.

NOW, THEREFORE, BE IT RESOLVED that the proposed Ames Urban Fringe Plan be re-adopted by the Story County Board of Supervisors with the two additional revisions noted above and approved by the Ames City Council and Gilbert City Council.

RESOLUTION 07 – 06

ADOPTION OF THE NATIONAL INCIDENT MANAGEMENT SYSTEM

IT IS HEREBY resolved by Story County, Iowa, that:

WHEREAS, Emergency preparedness, response, and recovery to critical incidents, whether natural or manmade, requires integrated professional management, and

WHEREAS, Unified Command of such incidents is recognized as the management model to maximize the public safety response to include, but not be limited to, the use of standardized terminology for multi-agency response, standardized organizational structures, interoperable communications, consolidated action plans, unified command structures, uniform personnel qualification standards, uniform standards for planning, training, and exercising, comprehensive resource management, and designated incident facilities during emergencies or disasters, and

WHEREAS, The National Incident Management system, herein referred to as NIMS, has been identified by the Federal Government as being the requisite emergency management system for all political subdivisions, and

WHEREAS, Failure to adopt NIMS as the requisite emergency management system may preclude reimbursement to the political subdivision for costs expended during and after a declared emergency or disaster and for training and preparation for such disasters or emergencies.

THEREFORE, It shall be the public policy of Story County to adopt the NIMS concept of emergency planning and unified command. It shall further be the policy of Story County to train public officials responsible for emergency management.

RESOLUTION NO. 07-12

RESOLUTION SUPPORTING THE COUNTY MANAGEMENT OF THE ADULT
MENTAL HEALTH/DEVELOPMENTAL DISABILITIES SYSTEM

Whereas, county property taxes have been and continue to be a major funding source for services to adults with MH/MR/DD/BI,

Whereas, beginning in 1994, the state began a process to fund a larger amount of the adult service system from state funds,

Whereas, beginning in 1994, the state embarked on a partnership with the counties to fund 50% of the "base" and all of the growth in the system,

Whereas, the counties agreed to manage the system with the combination of local, state and federal funds,

Whereas, the MH/DD/MR/BI Commission undertook a project to improve the system and in that evaluation confirmed that the adult disability service system should be managed by the counties,

Whereas, the county system has worked well for the past ten years,

Whereas, there is no evidence that a centralized system of services will provide better services for less money than the current system,

Now, therefore, be it resolved by the Board of Supervisors of Story County that the undersigned do hereby, request the Iowa Legislature to maintain its commitment to the local management of the adult MH/DD/MR/BI system in Iowa.

National Election Worker Appreciation Week

- WHEREAS,** on November 7, 2006, more than 1,000,000 persons will serve in the process of conducting our federal election; and
- WHEREAS,** election workers represent every facet of our society and communities and provide a tangible link between the voting public and the election process; and
- WHEREAS,** election workers provide an invaluable function to our country and are one of this country's most valuable resources; and
- WHEREAS,** election workers volunteer to serve their fellow citizens with distinction and provide an invaluable service to their communities; and
- WHEREAS,** election workers span the generation gap from high school students to senior citizens and mirror the amazing diversity of their communities and American society as a whole; and
- WHEREAS,** election workers are the backbone of American democracy and their dedicated service allows our democracy to flourish; and
- WHEREAS,** election workers are America's "champions of democracy," it is most appropriate to recognize the contribution that election workers make each time we cast our votes:

NOW, THEREFORE, BE IT RESOLVED that the Story County Board of Supervisors, in concert with the states, counties and election jurisdictions of the United States, proclaims the week of November 5-11, 2006 as "National Election Worker Appreciation Week."

BE IT FURTHER RESOLVED that the Story County Board of Supervisors extends its appreciation and admiration for the election workers of Story County, Iowa and the vital services that they perform in conducting this County's elections.

STOP SIGN AUTHORIZATION

WHEREAS: The Board of Supervisors is empowered under authority of Sections 321.236, 321.255, and 321.345 of the 2005 Code of Iowa to designate stop conditions on secondary roads and intersections under their jurisdiction.

WHEREAS: Traffic volumes and sight conditions on both 630th Avenue and 640th Avenue, at their respective intersections with 340th Street, (on the Story/Polk County line), have been reviewed and a traffic study conducted, in cooperation with the Polk County Engineer, and

WHEREAS: Said study has been completed and now leads to the joint recommendation that stop signs be erected at these two locations to control east-west traffic, due to the greater volumes on the north –south routes, and

NOW, THEREFORE, BE IT RESOLVED by the Story County Board of Supervisors hereby authorizes the erection of Stop signs for westbound traffic on 340th Street at both it's intersection with 630th Avenue, and with 640th Avenue, as Story County's portion of the needed action.

RESOLUTION 07-18

Assessed/Taxable Values of Utility Companies

Be it Resolved, that pursuant to Section 433.9, Code of Iowa, there be ordered entered in the minute book the length of lines and the assessed value of the property of each of the following utility companies situated in each city, township, or lesser taxing district in its county as fixed by the Director of Revenue and certified to the County Auditor. There is no statutory assessment limitation to 2006 assessments of utility property; therefore, the assessed values shall constitute the taxable value for 2006 (payable in 2007-2008 fiscal year) of said property for taxing purposes with the exception of gas and electric utilities as follows: Gas and Electric utility assessed and taxable values are determined on a company by company basis. The taxes on said utility property when collected by the County Treasurer shall be disposed of as taxes on real estate. A detailed report showing the value for each company by taxing district is on file in the County Auditor's Office.

ADMINISTRATIVE PROCEDURES FOR FLOOD PLAIN MANAGEMENT AND REGULATION

1.0 STATEMENT OF INTENT

The best way for Story County to implement its flood plain management responsibilities is through consistent administration of the flood plain regulations. In order to do this, Story County has adopted written Administrative Procedures that clearly outline the requirements and regulations that will be applied to any development within the flood plain.

2.0 APPLICABLE REGULATIONS

Flood plain management has been established through Ordinance No. 162 which regulates:

- Development under provisions of the NFIP; (Development means any man-made change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation, or drilling operations or storage of equipment or materials.)
- The placement of structures, methods of construction, types of structures, alterations to structures (including manufactured homes);
- Additions, repairs or renovations to existing structures which are classified as substantial improvements;
- Certain provisions regarding subdivisions;
- Installation of water and sewer utilities;
- Filling, grading, channelizing, and excavating within the flood plain;
- Installation and replacement of roads and bridges, storage of materials and equipment; and
- Any related activities which may affect the level of the 100-year flood event.

3.0 FLOOD PLAIN MANAGER

As the agent for implementing the requirements of Ordinance No. 162, the **Flood Plain Manager** is responsible for:

- Understanding the regulations governing the flood plain;
- Reviewing the flood plain development permit applications;
- Conducting inspections;
- Taking enforcement actions when necessary;
- Interacting in variance and appeal processes;
- Keeping records of all flood plain development;
- Collecting fees;
- Investigating complaints of violations;
- Maintaining and updating administrative forms;
- Disseminating flood plain management information; and
- Post-flood operating procedures.

The Flood Plain Manager is the Story County Planning and Zoning Director, who may delegate such authority.

4.0 FLOOD PLAIN PERMITS

Story County has established a flood plain development permitting system that includes regulating all flood plain development in the special flood hazard areas. It is important to note that the concept of "development" extends beyond the traditional "zoning" permit. Whereas the

X Page 2

zoning permit is concerned solely with structures, the flood plain development permit includes buildings and alterations to landscape (such as excavation or use of fill) that would affect drainage patterns or the flood carrying capacity of the watercourse. In reviewing an application, the key to remember is that the proposed activity itself must be safe from flooding and it must not increase the flood hazard to other areas.

4.1 Types of Flood Plain Permits

Story County issues the following permits for development in the flood plain:

4.1.1 Flood Plain Development Permit for Non-Structural Development. This Permit is applicable in cases where there is a proposal for non-structural changes including but not limited to mining, dredging, filling, grading, paving, excavation or drilling operations.

4.1.2 Flood Plain Development Permit for Structural Development. This Permit is applicable in cases where there is a proposal for anything constructed or erected on the ground or attached to the ground, or which requires attachment to something having a permanent location on the ground, including but not limited to buildings, factories, sheds, cabins, factory-built homes, storage tanks and other similar uses.

4.1.3 Zoning Permit. All development, non-structural or structural, in the flood plain also requires the issuance of a zoning permit.

4.2 Permit Application Packet

The Flood Plain Development Permit Application package to be submitted by the Applicant must include the following required information, as appropriate:

- A. Flood Plain Development Permit Application;
- B. Zoning Permit Application;
- C. Technical documentation as required (see Section 4.3.3);
- D. Any additional permits or reviews (see Section 4.3.4 and 4.3.5);
- E. Plans and blueprints; and
- F. Cost analysis for substantial improvement/substantial damages.

4.3 Permit Application Review

4.3.1 Application Review. The application form shall be reviewed for completeness and must be properly signed by the applicant.

4.3.2 Plan Review.

- A. **Review** site plans, grading and excavation plans, and building design plans for:
 - 1. Completeness and clarity;
 - 2. Existing and proposed topographic information, including spot elevations;
 - 3. Boundaries of the floodway and the flood plain;
 - 4. Building elevations for all structures showing the level of the base flood elevation (BFE);
 - 5. Proposed obstructions in the floodway;
 - 6. Professional registered architect, engineer or land surveyor seal, if prepared by same;
 - 7. Location of all proposed development;
 - 8. Other considerations:
 - a. Anchoring requirements
 - b. Construction materials and methods

X Page 3

- c. Utilities
- d. Subdivisions
- e. Encroachments
- f. Elevation of the lowest floor
- g. Floodways.

- B. **Examine** SITE INFORMATION in detail for:
- 1. Location of property lines and proposed development;
 - 2. Streets;
 - 3. Watercourses;
 - 4. Existing and proposed structures;
 - 5. Topographic information;
 - 6. Floodway and floodplain boundaries; and
 - 7. References to any special regulations due to location of property.
- C. **Assess** the ELEVATION DATA provided in the application:
- 1. Scrutinize the elevations using the elevation data contained in the Flood Insurance Study (FIS) and other available local data.
 - 2. The flood-related delineations must be consistent with the FIS data.
 - 3. When elevation data is not provided in the FIS for unnumbered A zones, the developer, as a cost of doing business must provide elevations for development in unnumbered A zones.
 - 4. All elevation information should be accurate, as the application package will serve as the record substantiating the issuance of the permit.
 - 5. NFIP requirements also stipulate that lowest floor elevations be recorded.
- D. **Review** BUILDING DESIGN PLANS:
- 1. Type of structure and proposed use
 - 2. The placement and elevation of the lowest floor
 - 3. The type of foundation system
 - 4. The existence of an enclosure below the lowest floor, if any
 - 5. The elevation of the lowest floor in relation to the base flood elevation
 - 6. The kind and potential use of the structure
 - 7. The height to which a nonresidential structure is to be floodproofed
 - 8. Anchoring systems to stabilize the structure during flooding.
- E. **Have** ENGINEERING DOCUMENTS reviewed by the County Engineer.
The four separate engineering documents linked to the NFIP requirements are:
- 1. Hydrologic and hydraulic calculations concerning proposed floodway encroachments.
 - 2. Loading calculations and methods of construction relative to floodproofing.
 - 3. Alternative designs for meeting the minimum opening requirements for enclosures below the lowest floor.
 - 4. Design and methods of construction for breakaway walls that exceed SOP loading resistance of twenty pounds per square foot.
- F. **Verify** that all necessary technical documents are included and properly certified.
Three conditions that necessitate the filing of **certified documentation**:
- 1. **Floodway Encroachment/"No Rise" Certificate:** If any of part of the proposed project is to be located in a designated floodway, the applicant must submit engineering documentation demonstrating that the proposed

X Page 4

encroachment would not result in any increase in base flood heights. There is no form or special format for a "No-Rise" certificate. It may be a written statement, supported by hydraulic computations, signed by a registered professional engineer, who certifies that the development will result in no increase in flood heights.

2. **Watertight Floodproofing:** In the event a nonresidential structure is to be floodproofed according to the NFIP standards, the applicant must submit a statement or floodproofing certificate from a registered professional engineer or architect certifying that the design and methods of construction meet these standards. Note: To receive a flood insurance rate based on 100-year flood protection, the nonresidential structure must be dry floodproofed to an elevation at least one (1) foot above the base flood elevation to be rated at the base flood elevation rate (i.e. one foot of freeboard).
3. **Enclosures Below the Lowest Floor:** When an applicant designs an enclosure below the lowest floor using an alternative to the minimum standard for openings prescribed in the NFIP requirements, a registered professional architect or engineer must certify the design accounts for the effects of hydrodynamic loads and buoyancy.

4.3.3 Certified Documentation. Certified documentation may include:

- A. **NFIP Elevation Certificate:** Provides a record of the as-built elevation of the lowest floor.
- B. **NFIP Floodproofing Certificate:** Provides a record of the height of floodproofing.

4.3.4 Additional Permits.

- A. In general, a Corps. of Engineers "404" permit is required for any placement of material (fill, piers, etc.) in a stream channel, or for the filling or draining of a wetland.
- B. A permit from the Iowa Department of Natural Resources (IDNR) is required for any bridge, levy or dam, or any other development that is not addressed in the flood plain regulations.
- C. The applicant should provide documentation to the Flood Plain Manager stating that all required Federal and State permits have been applied for, and that the project will not proceed until those permits are issued.
- D. The Flood Plain Manager may want to send copies of the application to the Corps. of Engineers, Rock Island Division and to the Iowa Department of Natural Resources (IDNR) for their review.

4.3.5 Additional Review.

- A. If the project involves an alteration or relocation of a watercourse, the Flood Plain Manager must notify adjacent communities, the Iowa Department of Natural Resources Floodplain Permits Branch, and the FEMA Regional Office.
- B. A proposal to change a floodway delineation or a flood plain boundary must be reviewed and approved by FEMA in accordance with established procedures. Contact should be made with the FEMA Regional Office regarding such procedures.

4.4 Determination of Compliance/Noncompliance

When review of a flood plain development permit application is complete, there are three options for action:

- 1) Approve the permit application

X Page 5

- 2) Conditionally approve the permit application
- 3) Deny the permit

4.4.1 Approval of the Proposal/Permit. If the proposal is found to be compliant, then the Flood Plain Manager must issue the permit.

- A. The **floodplain development permit** becomes the official authorization from the County allowing the applicant to proceed based on the information submitted in the application package.

4.4.2 Denial of the Permit. If the proposal fails to comply with the regulations, then a flood plain development permit must be denied.

- A. It is helpful to the applicant to have the major area(s) of noncompliance pointed out so the appropriate correction(s) can be made.
- B. Clarification of deficiencies can help reduce the number of unnecessary appeals to administrative and regulatory decisions.

4.5 Inspections

Normal zoning inspection procedures shall be followed. When a structure is required to be elevated, an approved FEMA "Elevation Certificate" shall be required.

5.0 ENFORCEMENT

Often, public complaints serve to augment the routine inspection and enforcement processes. The Flood Plain Manager may be called on to investigate these ad hoc inquiries. The Flood Plain Manager should use these opportunities to monitor any encroachments that may have occurred in the flood plain (including fill, construction, placement of mobile homes, etc.).

Additionally, by developing professional relationships with other County staff and instructing them periodically on what types of violations may occur, the Flood Plain Manager can increase this flood plain monitoring capacity at no additional cost to the County.

5.1 Administrative Methods

If the infraction is found during an inspection of ongoing construction, the Flood Plain Manager can take initial steps to correct the problem by pointing out the deficiency to the developer and following up with another timely visit to ensure compliance.

If the violation is serious or if the problem continues after the follow-up inspection, the County can issue a stop work order to begin procedures to revoke the permit. All of these actions should be conveyed through certified letter that follow an established warning process.

If the violation continues, then usually formal legal action will have to be pursued.

5.2 County Infraction

The County infraction process has been established through Chapter 29, Violations and Penalties, of the *Land Development Regulations*. Issuance of a citation shall occur in accordance with the *Administrative Rules for Citing County Infractions*.

5.3 Simple Misdemeanor

Any person, firm or corporation violating the flood plain management regulations as established through Ordinance No. 162, or of any amendment or supplement thereto, may be deemed guilty of a Simple Misdemeanor and upon conviction thereof, shall be

fined not more than \$500 or imprisoned for not more than thirty (30) days. Each day such violation continues shall be considered a separate offense.

5.4 Injunctive Relief

Most often in the form of a temporary restraining order, injunctive relief is the court directed order to the defendant to cease any further noncompliant conduct. The activity is usually shown to be of danger to the public and that immediate irreparable harm can occur. Once the illegal activity is stopped, the County can proceed to request a mandatory injunction to abate the violations as a public nuisance.

6.0 VARIANCES AND APPEALS PROCESS

6.1 Variances

The Story County Board of Adjustment is empowered to hear and decide variances to Ordinance No. 162. Variances granted must meet the following applicable standards:

- A. No variance shall be granted for any development within the Floodway District which would result in any increase in the 100-year level. Consideration of the effects of any development on flood levels shall be based upon the assumption that an equal degree of development would be allowed for similarly-situated lands.
- B. Variances shall only be granted upon:
 1. a showing of good and sufficient cause;
 2. a determination that failure to grant the variance would result in exceptional hardship to the applicant; and
 3. a determination that the granting of the variance will not result in increased flood heights, additional threats to public safety, or extraordinary public expense; create nuisances, or cause fraud on or victimization of the public.
- C. Variances shall only be granted upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.
- D. In cases where the variance involves a lower level of flood protection for buildings that what is ordinarily required by the *Land Development Regulations*, the applicant shall be notified in writing over the signature of the Planning and Zoning Director that:
 1. the issuance of a variance will result in increased premium rates for flood insurance up to amounts as high as \$25 for \$100 of insurance coverage; and
 2. such construction increases risks to life and property.
- E. All variances granted shall have the concurrence or approval of the Iowa Department of Natural Resources.

In passing upon requests for variances, the Board of Adjustment shall consider all relevant factors specified the *Land Development Regulations* and:

- A. The danger to life and property due to increased flood heights or velocities caused by encroachments.
- B. The danger that materials may be swept on to other lands or downstream to the injury of others.
- C. The proposed water supply and sanitation systems and the ability of these systems to prevent disease, contamination and unsanitary conditions.
- D. The susceptibility of the proposed facility and its contents to flood damage and effect of such damage on the individual owner.
- E. The importance of the services provided by the proposed facility to the County.
- F. The requirements of the facility for a flood plain location.
- G. The availability of alternative location not subject to flooding for the proposed use.
- H. The compatibility of the proposed use with existing development and development

X Page 7

anticipated in the foreseeable future.

- I. The relationship of the proposed use to the *County Development Plan* and flood plain management program for the area.
- J. The safety of access to the property in times of flood for ordinary and emergency vehicles.
- K. The expected heights, velocity, duration, rate of rise and sediment transport of the floodwater expected at the site.
- L. Such other factors which are relevant to the purpose of the *Land Development Regulations*.

6.2 Approval of Variance

If a variance is approved, the County must send a letter to the applicant, in accordance with Ordinance No. 162, stating that the cost of flood insurance will be commensurate with the increased risk resulting from the reduced lowest floor elevation.

6.3 Appeals

Once the request for a variance is heard, it must be either granted or denied. If the variance is denied, the owner can seek relief through the judicial court system. Before the case can be presented to the court, all administrative and legislative remedies must be exhausted.

7.0 RECORDS

Flood-related information that shall be retained includes:

- A. Flood Plain Development Permits/Applications;
- B. (Includes all elevation and floodproofing certificates);
- C. Recorded "As-Built" elevations;
- D. Findings of fact relative to variances and appeals;
- E. NFIP Biennial Report forms;
- F. Other NFIP correspondence;
- G. Flood plain management data;
- H. "No-Rise" Certifications in cases of floodway development; and
- I. Copies of "Submit for Rate" on all structures built below 100-year flood levels.

8.0 FEES

Any required fees which are applicable towards development in the flood plain are as approved by the Story County Board of Supervisors by resolution each calendar year.

9.0 MAINTENANCE AND UPDATES TO ADMINISTRATIVE FORMS

Form management should include these considerations:

- A. Forms should include a listing of the application information outlined in the administrative provisions of the ordinance.
- B. Forms should reflect the technical provisions of the ordinance by requiring information relative to those provisions.
- C. The forms should be revised periodically to remain current with the changes in the flood plain management ordinance and to include pertinent information needs.
- D. Flood plain development permit applications, variance requests, and other administrative forms should be kept current and in sufficient supply.
- E. A good administrative form can serve as a checklist for identifying the other kinds of information that should accompany the application submission.

10.0 MAP APPEALS AND REVISIONS

X Page 8

Any official revision of the flood maps accomplished through either a Letter of Map Amendment (LOMA) or Letter of Map Revision (LOMR) should be appended to the official County flood plain map for permanent record.

11.0 MAINTENANCE OF FLOODPLAIN MAPS AND FLOOD DATA

The Flood Plain Manager is the contact for the County to determine the extent of the flood plain. As such, the Flood Plain Manager should:

- A. Maintain an adequate supply of FEMA maps for administrative purposes;
- B. Record all map corrections and notices of map revision and attach same to the official administrative map(s);
- C. Maintain other sources of known flood data for approximate flood plain areas; and
- D. Ensure the accurate flood plain maps are displayed in an appropriate public place.

12.0 BIENNIAL REPORTS

Every two years, FEMA sends a pre-printed form to the Story County Flood Plain Manager that should be completed and returned within thirty days. It requests information concerning any changes to the County's flood hazard area, development activities that have taken place in the flood plain, and verification of the number of flood plain residents and structures.

- A. The report must be signed by the person completing the form and returned to FEMA at the address provided. A copy of the completed report should be retained in the county's files for future reference.
- B. The Biennial Report indicates to FEMA the degree of development pressure on the floodplain. Variances issued in the flood plain are of particular interest to FEMA.

13.0 POST FLOOD STANDARD OPERATING PROCEDURES

See Appendix A.

14.0 STREAMBANK STABILIZATION MEASURES

When streambank stabilization measures are a component of a flood plain development permit application, the following information and measures are required:

- A. Completed and sign application (Form 36, Protecting Iowa's Waters)
- B. A to-scale or dimensioned site map showing the project area, property lines, and ownership, roads, buildings, existing levees or spoil banks and any other pertinent physical features. The plan must show the length of the stream reach to be protected.
- C. A to-scale or dimensioned cross sectional view of the project showing the bank height, bank slope – both existing and proposed, and a depiction or description of the protection measures including all appropriate dimensions. Include any site preparation work planned for the bank such as sloping, terracing (benching) or filling.
- D. Type and size of material to be used, including any filter fabrics or bedding material. Accepted revetment materials include field stone, quarry rock, and broken concrete. When using broken concrete, all exposed reinforcing steel must be cut flush with the surface of the concrete prior to placement. Any concrete slabs larger than three feet across must be broken into smaller pieces prior to placement. The use of asphalt or other solid waste is prohibited. The horizontal thickness of a revetment blanket should not exceed four feet.
- E. Indicate the spoil disposal site. Disposal of the spoil material directly on top of the streambank in the form of a levee or dike is generally prohibited. The preferred disposal method is to haul the material out of the flood plain or spread it thinly

✕ Page 9

(less than six inches) across the flood plain. In any case, the spoil must not be placed in an area that is or could be considered a regulated wetland.

- F. Names and mailing addresses of the immediate upstream, downstream and adjacent property owners and tenants, if applicable.
- G. Other information as may be required by the Flood Plain Manager.

RESOLUTION #07-22
Regarding CIETC dissolution and new 28E Agreement

WHEREAS the Central Iowa Employment and Training Consortium ("CIETC") is a separate legal entity and governmental subdivision of the state of Iowa created under the provisions of Iowa Code Chapter 28E; and

WHEREAS the powers of CIETC as a governmental agency have been exercised by its Board of Directors pursuant to Paragraph 5 of the organizational agreement by which CIETC was created, and its bylaws; and

WHEREAS the CIETC Board has served as the Local Elected Official (LEO) and Grant Recipient under and pursuant to the terms of the Workforce Investment Act of 1998, as amended ("WIA") for the Iowa Workforce Investment Region XI; and

WHEREAS the CIETC Board entered into a Regional Grant Agreement with the Iowa Workforce Development Department ("IWD"), pursuant to which CIETC was designated as the Service Provider, Fiscal Agent, and administrator of various programs and funds for employment training and related activities within that Region XI, including the Promise Jobs program, all under the supervision of IWD and the United States Department of Labor; and

WHEREAS IWD removed from CIETC its former Fiscal Agent responsibilities; and

WHEREAS IWD notified the CIETC Board that, unless the CIETC Board, as the LEO, selected an alternative Service Provider within an arbitrary and constrained timeframe, IWD would remove from CIETC its Promise Jobs program administration; and

WHEREAS, without funds from the Promise Jobs program, CIETC would be unable to cover its costs of operational and administrative overhead deemed necessary to carry on remaining activities, retain employees, and deliver services to individuals in need of employment-related services; and

WHEREAS the CIETC Board published invitations for proposals from agencies qualified to assume, and interested in assuming, the role and responsibilities of Service Provider and Fiscal Agent for Region XI; received and considered two proposals; received and considered the recommendation of the Regional Workforce Investment Board ("RWIB"); selected the Des Moines Area Community College ("DMACC") to serve in both capacities; and authorized legal counsel to draft a contract to document the foregoing; and

WHEREAS the contractual arrangement with DMACC has been finalized;

WHEREAS the contract will significantly realign responsibilities for service delivery and oversight in Region XI for employment training and related activities; will alter the nature and scope of functions and activities within the province of CIETC; and, given the provisions of paragraph 9 of the existing 28E Agreement, the foregoing developments represent an occasion that requires the CIETC 28E Agreement to be revisited; and

WHEREAS the CIETC Board has expressed a commitment to the uninterrupted continuation of programs and services for the benefit of CIETC employees and program recipients that is shared by the CIETC member governments;

BE IT THEREFORE RESOLVED that, subject to approval of all other CIETC member governments to be served within Region XI, the Board of Supervisors of Story County hereby adopts the following:

1. That the existing CIETC 28E Agreement be terminated and CIETC be dissolved as a corporate body politic.
2. That the CIETC board members and officers, in cooperation with legal counsel, proceed with winding up the affairs of CIETC as expeditiously as can be prudently accomplished, including without limitation, authority to transfer CIETC employees and personnel records to DMACC pursuant to the approved contract; to deposit with DMACC from CIETC's available funds the resources necessary to cover the accrued PTO of CIETC employees; to assign any and all leases and/or ownership of real and personal property to DMACC pursuant to the approved contract; to assign other contracts, claims, defense, off-sets, and causes of action as appropriate; to transfer books and records to DMACC regarding programs previously administered by CIETC, including records relating to individual program recipients; and to provide notice of the dissolution to third parties, including other governmental boards and agencies.
3. That the accompanying, new 28E Agreement under the name "Regional Workforce Investment Alliance ("RWIA") be adopted, executed, and duly filed and recorded as provided by law as soon as practicable following the approval of a like resolution by all of the other CIETC member governments to be served within Region XI.
4. That RWIA will be the LEO as contemplated by the WIA, instead of CIETC being the LEO as it has been.
5. That upon such adoption, execution, and recording, notice shall be given to other governmental boards and agencies.
6. That a new Memorandum of Understanding be negotiated and finalized between RWIA and RWIB.
7. That the Board Chairperson be, and is hereby, authorized to execute such documents and do such things as may be deemed necessary to effectuate the foregoing as seamlessly as possible and with the least possible disruption to the uninterrupted delivery of needed services to program recipients, including without limitation the execution of the new 28E Agreement for RWIA.

RESOLUTION # 07-23

CONSTRUCTION EVALUATION RESOLUTION

WHEREAS, Iowa Code section 459.304(3) sets out the procedure if a board of supervisors wishes to adopt a “construction evaluation resolution” relating to the construction of a confinement feeding operation structure; and

WHEREAS, only counties that have adopted a construction evaluation resolution can submit to the Department of Natural Resources (DNR) an adopted recommendation to approve or disapprove a construction permit application regarding a proposed confinement feeding operation structure; and

WHEREAS, only counties that have adopted a construction evaluation resolution and submitted an adopted recommendation may contest the DNR’s decision regarding a specific application; and

WHEREAS, by adopting a construction evaluation resolution the board of supervisors agrees to evaluate every construction permit application for a proposed confinement feeding operation structure received by the board of supervisors between February 1, 2007 and January 31, 2008 and submit an adopted recommendation regarding that application to the DNR; and

WHEREAS, the board of supervisors must conduct an evaluation of every construction permit application using the master matrix created in Iowa Code section 459.305, but the board’s recommendation to the DNR may be based on the final score on the master matrix or may be based on reasons other than the final score on the master matrix;

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF
Story **COUNTY** that the Board of Supervisors hereby adopts this construction evaluation resolution pursuant to Iowa Code section 459.304(3).

RESOLUTION
ROADS ADDED to the
CLASS B ROAD SYSTEM
Story County Resolution No. 07-24

WHEREAS, Section 57 of Chapter 309 of the Code of Iowa allows a county to establish a Class B Road System, with a specified level of maintenance, and

WHEREAS, the Board of Supervisors of Story County did, on March 20, 1990, establish that system with the passage and publication of Ordinance #23, along with the publication and hearing requirements to be used to add roads to that system, and

WHEREAS, Legal Notices for Public Hearings were published in the Ames Tribune on December 1st, 2006 for the December 11th hearing and on December 5th for the December 18th hearing, and in the Tri-County Times and the Nevada Journal on December 7th for both the December 11th and 18th hearings, and

WHEREAS, informational letters were also mailed to all adjacent landowners along the roads to be reclassified,

NOW, THEREFORE BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF STORY COUNTY that the following roads, labeled by number on the attached map, shall be added to the Class B Road System:

Hearing Date: December 11th, 2006

RESOLUTION NO. 07-25**

WHEREAS, there has been submitted to the Board of Supervisors of Story County, Iowa, an application to subdivide property under the ownership of Woodland Farms, Inc. involving the property hereinafter described as:

Part of the Southwest Quarter of the Northwest Quarter of Section 11, Township 85 North, Range 24 West of the 5th P. M., Story County, Iowa, more particularly described as follows: Commencing at the West Quarter Corner of said Section 11; thence N00°04'00"W, 252.79 feet along the west line of the Northwest Quarter of said Section 11 to the Point of Beginning; thence continuing N00°04'00"W, 220.00 feet; thence S88°57'32"E, 471.60 feet; thence S00°05'13"E, 220.00 feet to the Northeast Corner of Parcel M, as shown on a Plat of Survey by Gregory L. Ross, filed in the Office of the Story County Recorder on December 1, 2004, and recorded in Slide 227, Page 6; thence N88°57'32"W, 471.68 feet to the Point of Beginning, containing 2.38 acres, which includes 0.34 acres of existing public road right of way.

WHEREAS, Woodland Farms, Inc. are the legal titleholders of said platted real estate, and

WHEREAS, said Plat has been submitted to the Story County Planning and Zoning Commission as required by law and said Commission has recommended that the Plat be approved subject to two conditions: (1) The applicant shall successfully rezone the property in total to C-Commercial within 120 days from the date of approval by the Board of Supervisors. If that rezoning does not occur, staff will take the necessary steps to request that the Board vacate the plat as approved. (2) Written and signed statements by such appropriate utility officials regarding availability of such utility service shall be provided prior to the scheduling the plat before the Board of Supervisors, and

WHEREAS, it appears that all conditions and requirements prescribed by Chapter 354, Code of Iowa, and as prescribed by the Story County Development Plan, and Story County Land Development Regulations have been complied with and met, and

AND WHEREAS, it is the opinion of the Board of Supervisors of Story County, Iowa, that it is advisable and in the best interests of Story County, Iowa, and all persons concerned, that said Plat be approved and accepted.

NOW, THEREFORE, BE IT RESOLVED that the final plat of the Mehl Minor Subdivision involving real estate as herein described be and the same is hereby approved WITH CONDITIONS AS OUTLINED BELOW and accepted and all acts and deeds of the said owners and grantors in the premises are hereby confirmed and approved and the above-described real estate shall hereinafter be known as the final plat of the Mehl Minor Subdivision:

- 1) The applicant shall successfully rezone the property in total to C-Commercial within 120 days from the date of approval by the Board of Supervisors. If that rezoning does not occur, staff will take the necessary steps to request that the Board vacate the plat as approved.
- 2) Written and signed statements by such appropriate utility officials regarding availability of such utility service shall be provided prior to the scheduling the plat before the Board of Supervisors.

IT IS FURTHER RESOLVED that the Chair of the Board of Supervisors and the County Auditor are authorized and they are hereby directed to certify a copy of this Resolution to be

affixed to said Final Plat upon its approval by the Board of Supervisors.

RESOLUTION NO. 07-27
A RESOLUTION URGING THE ENHANCEMENT OF THE
RESIDENCY REQUIREMENT IN IOWA CODE SECTION
692A.2A

WHEREAS, the Board of Supervisors of the County of Story Iowa, has considered the issues of ineffectiveness and expenditure of law enforcement resources related to sex offender residency restrictions, and

WHEREAS, the Iowa County Attorneys Association, the Iowa Sheriffs and Deputies Association, the Iowa Coalition Against Sexual Abuse, the Prevent Child Abuse Iowa organization, the Iowa State Association of Counties, and not less than eleven other professional Iowa groups and associations support repeal and substitution of the statute, and

WHEREAS, the Board of Supervisors of the County of Story desires to express its support for the enhancement of Iowa Code Section 692A.2A.

NOW, THEREFORE, BE IT RESOLVED by the Board of Supervisors of the County of Story, Iowa:

Section 1: That that the Legislature of Iowa and the Governor of Iowa should repeal Iowa Code Section 692A.2A and substitute an enhanced statute which creates safe zones that would prohibit sex offenders from entering areas near schools and day cares; improve tracking abilities by law enforcement; and appropriate funding to create a parental education and awareness program.

Local Control Resolution

WHEREAS, numerous studies have found that tobacco smoke is a major contributor to indoor air pollution, and that breathing secondhand smoke (also known as environmental tobacco smoke) is a cause of disease in healthy nonsmokers, including heart disease, stroke, respiratory disease, and lung cancer; and

WHEREAS, secondhand smoke is a Class A carcinogen containing over 4,000 chemicals, 200 of which are known poisons and 50 of which are known to cause cancer; and

WHEREAS, secondhand smoke kills 50,000 to 60,000 Americans every year from heart disease and lung cancer; and

WHEREAS, the U.S. Centers for Disease Control has issued a warning that anyone at risk for heart disease should avoid entering smoke-filled environments; and

WHEREAS, employees should not be forced to risk their health through exposure to dangerous and deadly toxins in their workplace; and

WHEREAS, according to the U.S. Surgeon General, the only way to fully protect employees and the public from the hazards of secondhand smoke is to eliminate smoking by creating smoke-free environments; and

WHEREAS, local and state governments throughout the country have successfully passed smoke-free air laws to protect people against the harmful effects of secondhand smoke; and

WHEREAS, the Story County Board of Supervisors desires to protect the health, comfort and working environment of its residents and employees as they may be affected by smoking in various public places in the County; and

WHEREAS, the General Assembly of the State of Iowa has not provided cities and counties the legal authority through legislation to pass local smoke-free policies, now, therefore, be it

RESOLVED, That the Story County Board of Supervisors hereby requests the Iowa General Assembly and the Governor of the State of Iowa pass legislation allowing local control of smoking in public places.

**Resolution In Favor of the Proposed Amendment to the
Electronic Transactions Clearinghouse 28E Agreement**

WHEREAS, Section 10 of the Electronic Transactions Clearinghouse 28E Agreement provides for amendment of the 28E Agreement by resolution of the ISAC Board of Directors, if the amendment is then submitted to a vote of the individual ETC-member counties; and

WHEREAS, the ISAC Board of Directors approved such an Amendment on January 26, 2007; and

WHEREAS, the amendment would change the ETC funding formula to make it based on an annual base fee of \$1,000 per county plus an assessment to cover remaining budget costs, and change it so that the assessment is based upon the counties' general basic fund expenditures, rather than all general fund expenditures;

NOW, THEREFORE, BE IT RESOLVED by the Story County Board of Supervisors that the Board hereby votes in favor of the Proposed Amendment to the ETC 28E Agreement.

Loss of Federal Entitlement Benefits Draft Resolution

WHEREAS, U.S. Code of Federal Regulations, Title 42, Part 435.1009 states that federal financial participation (FFP) is not available in expenditures for services provided to individuals who are inmates of public institutions, and

WHEREAS, States being unable to assume the federal share of providing Medical services to FFP eligible persons being held in county jails and detention facilities, tend to terminate or sometimes suspend eligibility, and

WHEREAS, this immediate cessation of benefits occurs prior to the issuance of formal charges or conviction, and

WHEREAS, counties must provide medical services to all persons incarcerated in local jails and detention facilities, and

WHEREAS, as the result of this regulation to immediately cease FFP for medical benefits, all costs of medical care must be borne solely by counties,

NOW, THEREFORE, BE IT RESOLVED by the Story County Board of Supervisors request and strongly urges Congress to amend necessary federal regulation to allow federal financial participation for medical benefits to incarcerated individuals until convicted and sentenced to secure detention.

RESOLUTION 07-44

WHEREAS, Senators Rielly and Noble, Chair and Ranking Member respectively of the Transportation Committee, are seeking input concerning transportation needs with public meetings that are being held throughout the state; and

WHEREAS, the Road Use Tax Fund is an important source of support for construction and maintenance projects at the city, county and state level; and

WHEREAS, an integral part of that R.U.T.F. is the fuel tax, which has not increased since 1989, and during that timeframe construction costs have more than doubled; and

WHEREAS, the Iowa Good Roads Association, the Iowa County Supervisor's Association, the Iowa County Engineer's Association and a consortium of additional public and private individuals and organizations, has promoted the TIME-21 program (Transportation Investment Moves the Economy in the 21st Century) to underscore that steady deterioration of the construction dollar; and

WHEREAS, TIME-21 supports the Iowa Department of Transportation's request for an additional \$200 million added to the R.U.T.F. that would be committed to roadway infrastructure and would be generated by increasing transportation-related fees;

NOW THEREFORE BE IT RESOLVED that the Story County Board of Supervisors recognizes the vital role that our transportation system performs for Iowa and encourages the legislature to consider funding alternatives to increase revenue to the Road Use Tax Fund.

TEMPORARY ROAD CLOSURE

WHEREAS: Section 306.41 of the Code of Iowa provides that. The agency having jurisdiction and control over any highway in the state, or the chief engineer of said agency when delegated by such agency, may temporarily close sections of a highway by formal resolution entered upon minutes of such agency when reasonable and necessary because of construction, reconstruction, maintenance or natural disaster and shall cause to be erected ROAD CLOSED signs and partial or total barricades in the roadway at each end of the closed highway section and on the closed highway is intersected by other highway if such intersection remains open. Any numbered road closed for over forty-eight hours shall have a designated detour route. The agency having jurisdiction over a section, or the persons or contractors employed to carry out the construction, reconstruction, or maintenance of the closed section of highway, shall not be liable for any damages to any vehicle that enters the closed section of highway or the contents of such vehicle or for any injuries to any person that enters the closed section of highway, unless the damages are caused by gross negligence of the agency or contractor.

NOW, THEREFORE, BE IT RESOLVED by the Story County Board of Supervisors that the County Engineer be authorized to close Story County Secondary roads as necessary with the actual dates of closure to be determined by the County Engineer as follows:

1. FOR CONSTRUCTION: Any project as described in the approved Story County Secondary Road Construction Program for the current fiscal year and any approved supplements thereto.
2. FOR EMERGENCY CLOSURE of any road for maintenance purposes: Any route deemed necessary by the County Engineer.

**IN SUPPORT OF EFFORTS TO CONVENE THE IOWA YOUTH LEADERSHIP
TOWN HALL MEETING**

Whereas, student leaders at Iowa State University determined to join together to discuss the important issues of trade, manufacturing, jobs, and the future of the United States; and

Whereas, student leaders from the Iowa State University Collegiate Future Farmers of America, the Iowa State University Engineering Leadership Program, the Iowa State University Democrats, and the Iowa State University Republicans resolved to join together to discuss these issues regardless of their own political persuasions; and

Whereas, these student leaders indicate:

Iowa's manufacturing sector, as well as suppliers and ancillary business, has lost more than 27,000 jobs since 1998

Manufacturing employs over 4,300 people in Story County, accounting for nearly 8 percent of the jobs in the county

Agriculture in Story County accounts for nearly 7 percent of the jobs in the county, representing \$536.5 million effect on the local economy

Manufacturing is a vital part of the Iowa and American economy, providing tens of millions of families with jobs

American manufacturing creates, on average, four indirect and support jobs for every job it creates

Foreign governments that provide huge subsidies to their domestic agriculture businesses directly and adversely impact Iowa and American farmers.

\$136 billion in wages are expected to shift from the U.S. to low-cost nations by 2015, and

The United States trade deficit has been fluctuating between \$60 billion and \$70 billion per month, and surpassed \$725 billion in 2005.

Be it resolved that the Story County Board of Supervisors supports and applauds the efforts of the Iowa State University Collegiate Future Farmers of America, the Iowa State University Engineering Leadership Program, the Iowa State University Democrats, and the Iowa State University Republicans in hosting "Iowa Youth Leadership Town Hall Meeting" scheduled on June 21, 2007 at the Hilton Coliseum of Iowa State University.

Be it further resolved that the Story County Board of Supervisors commends these organizations and their members in working together to convene a meeting to discuss the important issue of trade policy.

RESOLUTION #07-59

**NOTICE TO ALL PROPERTY OWNERS
WEED COMMISSIONER NOTICE**

Be it resolved by the Board of Supervisors of Story County, Iowa (Resolution #07-59, adopted June 5, 2007), that pursuant to the provisions of Chapter 317.13, Code of Iowa 2003, it is hereby ordered:

Each owner and each person responsible for managing lands shall cut, burn or otherwise control all noxious weeds as defined in this chapter. Control is defined as the prevention of the spread of noxious weeds by limiting the production of reproductive structures. Weeds shall be controlled as prescribed in the program of weed control order or orders made by the Board of Supervisors. The owner and person responsible for managing any lands shall keep said lands free from the growth of any other weeds that make the streets or highways adjoining said land unsafe for public travel. It is highly recommended that organic producers either certified or in the process of being certified, contact the Story County Weed Commissioner's Office.

In addition to the weeds listed in the Iowa Code 317, the Board of Supervisors declare the following weeds as noxious: *Allaria petiolata* (garlic mustard), *Myriophyllum spicatum* (Eurasian watermilfoil), *Polygonum cuspidatum* (Japanese bamboo) and *Lythrum salicaria* (purple loosestrife).

Noxious weeds shall be controlled before the following dates and as often thereafter as is necessary for control: Group 1 by June 10 - Garlic mustard, leafy spurge, musk thistle, Eurasian watermilfoil, Japanese

Bamboo; Group 2 by June 15 - Canada thistle, purple loosestrife; Group 3 by July 5 - Annual sunflower.

In case of failure to comply by the date prescribed in any order of control of weeds, the commissioner, the deputies, or agents may, subsequent to the time after service of the notice provided for in Section 317.6, enter upon the land and control the weeds or impose a maximum penalty of \$10 per day, up to ten days, that the owner or person responsible for managing the land fails to comply. If a penalty is imposed and the owner or person responsible for managing the land fails to comply, the commissioner shall cause the weeds to be controlled. If the commissioner, the deputies, or the agents enter the land and control the weeds, the actual cost and expense of cutting, burning, or otherwise controlling the weeds, along with the cost of serving notice and special meetings or proceedings, shall be paid by the county and together with the additional assessment to apply toward costs of supervision and administration, be recovered by an assessment against the tract of real estate on which the weeds were growing as provided in Section 317.21. Any fine imposed shall be recovered by a similar assessment.

The Story County Integrated Roadside Vegetation Management program will spot spray and/or mow serious Canada thistle infestations in county road rights-of-way and will treat other right-of-way vegetation problems as necessary to insure safe travel. Costs to control noxious weed problems associated with physical changes in the right-of-way, (i.e. over spray, excess tillage, untimely mowing) may be assessed to those responsible for such acts per Story County ordinance 107.VI.1. Soil erosion by wind and water promotes annual and perennial weed growth on agricultural land and in road rights-of-way. Landowners are encouraged to utilize erosion control methods such as conservation tillage, field borders, buffer strips, and grassed waterways.

Story County Resolution #07-67

Whereas, Iowa Code section 52.7, subsection 1, paragraph "1", as amended by 2007 Iowa Acts, Senate File 369, requires voting systems to provide a paper record for review by the voter, and

Whereas, 2007 Iowa Acts House File 911, section 1, subsection 13, requires the county board of supervisors to submit to the office of secretary of state a resolution adopted by the board declaring the method by which the county intends to comply with section 52.7, subsection 1, paragraph "1", 2007 Iowa Acts, Senate File 369, by June 15, 2007,

Therefore We, the Board of Supervisors of Story County hereby resolve that we intend to comply with section 52.7, subsection 1, paragraph "1", 2007 Iowa Acts, Senate File 369 as follows: [select one]

- ☐ Option A. _____ County uses only direct recording electronic voting machines (DRE) and intends to add paper record printer attachments that are compatible with the county's current DRE voting machines. Full re-imbursement funds are available from the state for this option.
- ☐ Option B. _____ County uses only direct recording electronic voting machines (DRE) and intends to acquire an optical scan voting system with ballot marking devices for accessibility. Only partial re-imbursement funds are available from the state for this option.
- ☐ Option C. _____ County's primary voting system is an optical scan system with direct recording electronic voting machines (DRE) for accessibility and the county intends to add paper record printer attachments that are compatible with the county's current DRE voting machines. Full re-imbursement funds are available from the state for this option.
- ☐ Option D. _____ County's primary voting system is an optical scan system with direct recording electronic voting machines (DRE) for accessibility and the county intends to acquire ballot-marking devices to replace the DREs. Only partial re-imbursement funds are available from the state for this option.
- ☒ Option E. Story County's primary voting system is an optical scan system with direct recording electronic voting machines (DRE) for accessibility.
