BOARD OF SUPERVISORS RESOLUTION NO. 06-05

RESOLUTION TO ABATE TAXES ASSESSED AGAINST SAID MOBILE HOME

WHEREAS, the following mobile home being located in the Story City Mobile Home Park LLC, in Story County, Iowa , has had numerous owners with no title transfers being made in the Story County Treasurer's office; and,

WHEREAS, said mobile home has an outstanding 2004 county tax sale certificate; and, the certificate of title as of date is a Patricia Campbell; and,

WHEREAS, a new prospective buyer has requested that these delinquent taxes be abated, per attached letter addressed to the Board of Supervisors, and, that this new buyer will then now start paying the taxes starting for the current year of 2005-2006; and,

WHEREAS, Section 435.25 of the Code of Iowa, states that when it is administratively impractical to pursue tax collection through the remedies of this section, all taxes, regular and special, interest, and costs shall be abated by resolution of the county board of supervisors. The resolution shall direct the treasurer to strike from the tax book the reference to said mobile homes;

NOW, THEREFORE BE IT RESOLVED, that all delinquent taxes on the following mobile home is hereby abated. The county treasurer is directed to strike from the tax book the county tax sale certificate that is in reference to said mobile home:

Story County Board of Supervisors
The Honorable Jane Halliburton, Chairperson
Members:

Please find attached a statement of receipt from the Story County Treasurer's office of $15 from me in securing a replacement title for Pat Campbell of American Family Insurance, 809 Wheeler Street, Suite 3, Ames, Iowa, 50010-4367.

Please also find attached a Real Estate Owner/Desc Inquiry noting Story City Mobile Home Park LLC, Eller Enterprises as owner of the mobile home park wherein the mobile home at issue is parked.

Purpose of Communiqué:

To seek compromise/forgiveness of $381.00 in unpaid tax against said mobile home.

Sequence of events:

1. I, C. J. Nannenga of 1204 Northridge Road, Suite 8, Story City, Iowa, 50248, became involved in seeking compromise of the taxes upon the request of Judy Morrow of Ellsworth, Iowa. Judy is a member of our congregation, is receiving disability and seeking to live in Story City to be closer to her family worship center and her mother, a resident of the Bethany Manor assisted living center.
2. An offer to purchase the mobile home in question was made and accepted with the present tenant/owner agreeing to provide clear title to the unit. The present owner, Pat K., is also on disability and in most apparent need of county case management in terms of a social worker who could intervene and offer assistance in personal health matters and general home upkeep. The offer to purchase was made prior to my involvement in this matter.
3. When it became apparent that a clear title to the property was not to be tendered, Judy Morrow requested my assistance. I, with the assistance of the County Treasurer's office did a title search and found that the transfer of ownership of the mobile home was not recorded when Eller Enterprises purchased the park property from Mrs. Pat Campbell. Mrs. Campbell has relinquished all interest in the unit to Eller Enterprises. The unit has since been sold, according to the present occupant, 3 to 4 times with no recording of the transactions occurring.
4. We now have a valid offer to buy that has been accepted by the current occupant/owner; two previously involved parties (Eller Enterprises and Pat Campbell), neither of whom desire to have any further involvement in terms of ownership of the property, and a back tax issue to resolve. As Pat Campbell is the owner of record by recordation, and as Pat Campbell is most willing to sign transfer of title to the current occupant who will in turn relinquish ownership to Judy Morrow, we seem to have found a solution to the matter.

5. Judy is a faithful member of our congregation. The congregation members are willing to assist in bringing the unit back into 'habitable' status for Judy. While we may not pay taxes for Judy, we can assist her in other ways which will allow her to be a responsible steward to her tax obligations to the county, an admonition of our principles of faith.

I wish to thank the Board of Supervisors in their consideration of this matter. I understand in visiting with the treasurer's office that this particular mobile home has been a bit of an issue with the county for some time. I hope that this proposal may bring this matter to a reasonable close to all parties involved. Please do not hesitate to contact me at 515-450-1450 if you have any questions, or Judy Morrow at 515-571-1754.

Respectfully;

C. J. Nannenga

RESOLUTION 06-20

Assessed/Taxable Values of Utility Companies –

Be it Resolved, that pursuant to Section 433.9, Code of Iowa, there be ordered entered in the minute book the length of lines and the assessed value of the property of each of the following utility companies situated in each city, township, or lesser taxing district in its county as fixed by the Director of Revenue and certified to the County Auditor. There is no statutory assessment limitation to 2005 assessments of utility property, therefore, the assessed values shall constitute the taxable value for 2005 (payable in 2006-2007 fiscal year) of said property for taxing purposes with the exception of railroad property and gas and electric utilities as follows: The taxable value of railroad property is at 99.1509% of assessed value. Gas and Electric utility assessed and taxable values are determined on a company by company basis. The taxes on said utility property when collected by the county Treasurer shall be disposed of as taxes on real estate. A detailed report showing the value for each company by taxing district is on file in the County Auditor's Office.

RESOLUTION NO. 06-26

CONSTRUCTION EVALUATION RESOLUTION

WHEREAS, Iowa Code section 459.304(3) sets out the procedure if a board of supervisors wishes to adopt a "construction evaluation resolution" relating to the construction of a confinement feeding operation structure; and

WHEREAS, only counties that have adopted a construction evaluation resolution can submit to the Department of Natural Resources (DNR) an adopted recommendation to approve or disapprove a construction permit application regarding a proposed confinement feeding operation structure; and

WHEREAS, only counties that have adopted a construction evaluation resolution and submitted an adopted recommendation may contest the DNR's decision regarding a specific application; and

WHEREAS, by adopting a construction evaluation resolution the board of supervisors agrees to evaluate every construction permit application for a proposed confinement feeding operation structure received by the board of supervisors between February 1, 2006 and January 31, 2007 and submit an adopted recommendation regarding that application to the DNR; and

WHEREAS, the board of supervisors must conduct an evaluation of every construction permit application using the master matrix created in Iowa Code section 459.305, but the board's recommendation to the DNR may be based on the final score of the master matrix or may be based on reasons other than the final score on the master matrix;

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF STORY COUNTY that the Board of Supervisors hereby adopts this construction evaluation resolution pursuant to Iowa Code section 459.304(3).

FARM-TO-MARKET REVIEW BOARD APPLICATION RESOLUTION

Story County Resolution No. 06-31

WHEREAS, a county may apply for modifications to its farm-to-market system to add or subtract mileage from its system, to accept or delete highways gained or lost through jurisdictional transfers, or to change the classification of roads within its system, and

WHEREAS, the Board of Supervisors of Story County has consulted with its County Engineer and desires to modify its farm-to-market road system to provide continuity of intracounty and intercounty routes, to meet the needs of existing or potential traffic, to better meet land use needs, or to provide a more suitable location for a farm-to-market route, and

WHEREAS, application for modifications to any county's farm-to-market system must be made to the Farm-to-market Review Board per the requirements of Iowa Code Section 306.6,

NOW THEREFORE BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF STORY COUNTY that this county is formally requesting that the Farm-to-market Review Board approve the following modifications to its farm-to-market system:

REMOVE:

Change 1. 210th Street from US 65 to 730th Avenue	- 2.964 miles
Change 2. 290th Street from US 65 to 730th Avenue	- 3.015 miles
Delete Total	5.979 miles

ADD:

Change 3. 130th Street (formerly IA 221) from I35 east to Roland	- 2.89 miles
Change 4. 170th Street from US 69 east to 570th Avenue	- 3.382 miles
Change 5. 180th Street from US 69 east to Dayton Avenue	- 2.033 miles
Change 6. Dayton Avenue south from 180th Street to 190th Street	- .988 miles
Change 7. Riverside Drive from US 69 east to Dayton Avenue	- 2.175 miles
Add Total	11.468 miles

The Board of Supervisors of Story County, in lawful session this 14th day of February, 2006, hereby adopts this farm-to-market modification resolution.

Change 5: 180th Street from US 69 east to the north end of Dayton Avenue. This segment is currently an area service road that provides a link from US 69 to two major Conservation related attractions; Peterson Pits (County owned old gravel pits) that are very popular for swimming, canoeing, and kayaking during the summer months with trails for cross country snow skiing in the winter. Further east is the main Conservation facility and headquarters, McFarland Park, which houses their main offices, frequent visitors, as well as numerous classes of students enjoying learning sessions about flora and fauna both inside and outside the facility. In order to provide continuity, this change request ties to change 6 for another segment.

Change 6: Dayton Avenue from 180th Street south to 190th Street is a connecting segment that must also be approved if Change 5 is approved. This paved (1986) segment actually has a high vehicle count already (1000 vpd), mainly due to the McFarland Park traffic as well as that traffic traveling westward on E29 and trying to avoid the City traffic of Ames. The route provided by approval of changes 5 and 6 would provide the continuity for our marked route E29 from US 69 across the remainder of the county eastward to our eastern County line. Although this addition would only be one mile from the 170th Street one, this one will allow for traffic to get to the east side of Ames as well and with out using the already congested, and accident plagued) Riverside Road further south. Improvements planned by the DOT for this summer's work on US 69 will add turning lanes to their highway at the county road intersections between the north Ames City limits and 190th Street. For these reasons, we are requesting that this segment be added to our Farm to Market system.

Change 7: Riverside Road between US 69 and Dayton Avenue currently provides the bulk of the east - west access in the county just outside Ames. Because Martin Marietta's limestone mine is located in the center of this segment the high traffic volumes become even higher (3200 vpd). This route is paved (1990), and the mine provides rock products for projects located in much of central Iowa. The traffic volumes are anticipated to rise with the completion of the National Animal Disease Lab expansion that is currently under way. For these reasons, we are requesting that this segment be added to our Farm to Market system.

Respectfully submitted,

Report on Current

FM System Status and Requested FM changes

February 8, 2006

As a part of our review of all the roads on our county's road system, and, as a beginning to the process considering multiple maintenance standards, we have first reviewed our current Farm to Market Road System, and based on that study, are herein submitting the following changes for your consideration:

Change 1: 210th Street from US #65 east to 730th Avenue - Although this three mile segment of roadway fits the continuity and integrated system criteria mentioned in 306.6A, the traffic volumes (20 and 25 vpd) are very minimal and this road does not serve as a "feeder" to others. In our opinion, it could therefore, be removed from the system

Change 2: 290th Street from US 65 east to 730th Avenue. Although this three mile segment of roadway also fits the continuity and integrated system criteria mentioned in 306.6A, the traffic volumes (of 10,15, and 20 vpd) are very minimal as well and this road does not serve as a "feeder" to others. In our opinion, it also could, therefore, be removed from the system

Change 3: 130th Street from the west I35 ramp east to Roland's city limits (now a part of marked County route E18), was formerly an Iowa Highway IA 221 and was transferred to Story County in July, 2004. I believe the continuity and integration factors associated with this segment, along with its very high traffic volumes, (3170 vpd), make it an obvious addition to our existing system.

Change 4: 170th Street from US 69 east to 570th Avenue will provide the 'missing link' of our posted route E23 from our west county line east to US 65. As you can see from the traffic count map provided, the western mile has a count of 470 vpd, reducing to 120 vpd as you travel east and meet 570th Avenue at the east end of the 3 mile segment. The west two and a half miles of this segment was graded for paving in 1979, due to the location of the ISU Horticulture Farms located there, but has never been paved. The high traffic count on this segment is also an indication of the amount of through traffic between the Gilbert area and the east side of the Interstate. For these reasons, we are requesting that this segment be added to our Farm to Market system.

RESOLUTION NO. 06-32

RESOLUTION AUTHORIZING SUBMITTAL OF AN APPLICATION TO THE IOWA FINANCE AUTHORITY (IFA) FOR FUNDS UNDER THE SINGLE-FAMILY REHABILITATION REVOLVING LOAN PROGRAM IN CONNECTION WITH THE AMES/STORY COUNTY PARTNERSHIP AFFORDABLE HOUSING PROGRAMS

WHEREAS, effective July 1, 2005, the Iowa Finance Authority announced the availability of $1 million dollars in loan funds for use by qualifying entities to rehabilitate single-family homes in their local communities under their newly created OurHome Single-Family Rehabilitation Revolving Loan Program; and,

WHEREAS, under the OurHome Program, the Iowa Finance Authority will provide funding in the form of a low-interest-rate loan of three percent to qualifying applicants; and,

WHEREAS, qualifying applicants may be non-profit or for-profit companies, city housing departments, regional Councils of Government, and other similar organizations; and,

WHEREAS, qualifying entities will apply for funds by demonstrating core competencies in three areas: (1) rehabilitation construction oversight, (2) management of loan funds, and (3) assistance for lower-income households in attaining/maintaining home ownership; and,

WHEREAS, one of the affordable housing program components of the Ames/Story County Partnership (ASCP) has been the administration of a Minor Repair Program for single-family homeowners; and,

WHEREAS, there currently exists a waiting list of homeowners needing this type of assistance; and,

WHEREAS, OurHome Program guidelines align closely with the goals of the Partnership; and,

WHEREAS, at their January 2006 meeting, the Partnership recommended that the City of Ames, as the ASCP Program Administrators, prepare an application to be presented to the Ames City Council for approval and submittal to IFA for funds under the OurHome Program.

NOW, THEREFORE, BE IT RESOLVED: by the City Council of the City of Ames or Story County Board of Supervisors, Iowa, that the submittal of an application to the Iowa Finance Authority for OurHome loan funds in connection with the Ames/Story County Partnership Affordable Housing Programs is hereby authorized.

RESOLUTION NO. 06-33

DRIVEWAY AND ENTRANCE CONSTRUCTION

WHEREAS: On April 18, 1995, Story County last reviewed our policy and the permit required for the construction of new driveways and entrances.

WHEREAS: Story County believes additional changes to the policy are needed, namely, requiring a $25.00 fee for said permit, eliminating pipe sales by the County, and implementing a 6 month expiration period.

NOW, THEREFORE BE IT RESOLVED, Story County hereby adopts this new policy applying to the construction of new driveways and entrances, and

BE IT FURTHER RESOLVED, THIS POLICY BECOMES EFFECTIVE ON February 22, 2006. A copy of the policy is a part of this resolution.

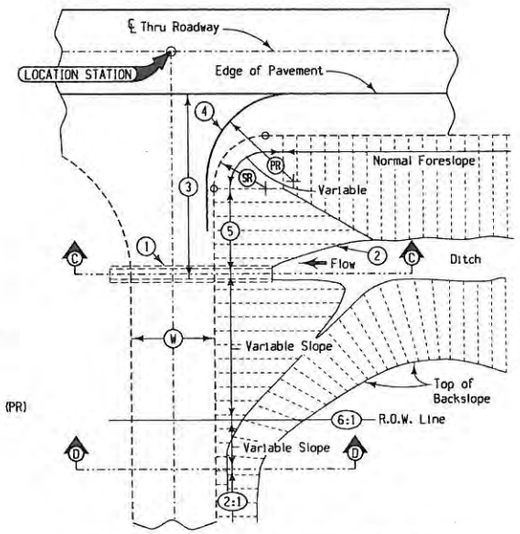
TYPICAL TEE INTERSECTION WITH SAFETY RAMP



TYPICAL FIELD, FARM, RESIDENTIAL OR LIGHT COMMERCIAL ENTRANCE

GENERAL NOTES:

Details shown hereon are typical and shall be modified appropriately at the direction of the Engineer to fit site conditions of skewed angle intersections and other variations. Refer to tabular listings and detail project plans for exact locations, dimensions, and other data for individual entrances and safety dikes.

The intent of the safety ramp shall be to provide an area where an out of control vehicle passing through the "tee" intersection could be directed to normal terrain without undue damage to the vehicle. Surface and side slopes shall be smoothly shaped to contours which would facilitate the intent of the ramps.

Surface and slopes of entrances shall be smoothly shaped and rounded where practical to provide minimal hazard to an out of control vehicle from through roadway.

Earthwork and material used for construction of safety ramps and entrances are included in estimate of quantities.

1. Normal locations for entrance pipe culverts shall coincide with the line of the toe of backslope as shown. Refer to tabulation of entrance pipe culverts and cross sections for details of installation.
2. Some special shaping of ditch may be required to fit culvert.
3. 8:1 slope shall end at the entrance pipe. 10:1 slope shall end 50 feet from the edge of pavement.
4. Entrance will only be paved as stated elsewhere in this plan.
5. Slope 10:1 or flatter without pipe. 8:1 or flatter with pipe. Slopes should be constructed relative to the roadway grade.

DETAILS OF TYPICAL ENTRANCE AND SAFETY RAMP

STORY COUNTY SECONDARY ROAD DEPARTMENT
DRIVEWAY AND ENTRANCE POLICY

GENERAL CONDITIONS

1. Definitions
   a. A DRIVEWAY is an access from a highway to serve a residence.
   b. An ENTRANCE is an access from a highway to any field, feed lot, yard, or building site other than residence.
   c. A CONTRACTOR is any person or company who performs the excavation necessary to construct or widen a driveway or entrance. This would include the owner/tenant if they do the construction.

2. Cross-Section
   a. The minimum width of driveway or entrance will be 20 feet. This policy does not render existing driveways or entrances less than 20 feet in width obsolete.
   b. The standard foreslope of a driveway or entrance will be a 3:1 slope. New and widened driveways and entrances on paved highways shall have flatter foreslopes of 10:1 (dry) and 8:1 (with culvert) as per Iowa D.O.T. Standard RL-7.
   c. The maximum allowable width of a driveway or entrance shall be 45 feet. New and widened driveways over 32 feet in width are subject to a surcharge of $20.00 per foot of additional width up to the 45-foot maximum width. (260.00 maximum surcharge).
3. Story County will not furnish surfacing material on any driveway or entrance. The property owner shall be responsible for surfacing on all existing and new driveways and entrances.

4. Existing driveways and entrances will be removed at no charge to the property owner, if the owner so requests.

CONSTRUCTION OF NEW AND WIDENED ACCESSES

1. The location of all new driveways and entrances to be constructed must be approved by the County Engineer.

2. The necessity for a culvert at a new access and the size and length of the culvert must be determined by the County Engineer.

3. The work performed on all driveways and entrances approved to be constructed or widened at the request of a landowner or tenant will be by a contractor at the expense of the party requesting the work. The party requesting the access shall pay the contractor for all work and expenses involved.

4. Upon approval by the County for a new or widened access, the landowner or tenant requesting the access work shall make all arrangements for the construction. If the county road ditch needs cleaned at the proposed access site, Story County will perform the necessary work prior to the contracted work.

5. The contractor performing the new or widened access work shall, prior to commencing said work, comply with the following:
   a. Contractor shall obtain a written permit from the County for the said construction when the permit fee of $25.00 plus any applicable surcharge for extra width is paid.

b. Contractor shall have on file in the Story County Engineer's Office a certificate of Insurance covering such projects. Minimum Insurance limits for general liability shall be:

Bodily Injury:	Property Damage:
$500,000 each occurrence	$250,000 each occurrence
$500,000 each aggregate	$250,000 each aggregate
Or Combined Single Limit:	$750,000 each occurrence
	$750,000 each aggregate

c. Contractor must purchase any necessary culverts from outside vendors, and pay any fees or surcharges due to Story County prior to the construction of the new drive or entrance.

d. Necessary traffic control signs may be picked up by the contractor at the county shop in Nevada, set up properly, removed and returned by the contractor, or the contractor may provide their own signs.

6. The contractor shall construct all new or widened accesses according to the standards set forth in this policy. The County Engineer shall be the sole judge as to whether the work was constructed to the County standards. The contractor will be given one opportunity to correct deficient work; after which, Story County will make any needed corrections at the contractor's expense.

7. Any access constructed or widened without a permit will be removed by the County without notice at the expense of the responsible party.

8. If the landowner or tenant desires granular surfacing on an access, it may be placed without permission at the expense of the landowner or tenant. The maximum top size of granular surfacing shall be three inches. Permission must be obtained from the County Engineer prior to the paving, at their own expense, of any access by a landowner or tenant.

MAINTENANCE OF ACCESSES

1. Story County will be responsible for maintenance of the portion of all legal driveways and entrances lying in their right-of-ways, except for the surfacing. The property owner shall be responsible for surfacing on all existing and new driveways and entrances.

2. If County maintenance activities disturb existing granular surfacing on a driveway, the County will restore the surfacing to its previous or better condition.

3. If it becomes necessary to disturb a paved driveway because of maintenance reasons, the County will not be responsible for restoration of any pavement removed from it's right-of-way. Granular surfacing will be placed following the maintenance activity where any pavement was removed. The landowner shall be responsible for replacing any pavement at their own expense.

4. Any existing access found to be dry where a culvert obviously is required will be assumed to be an illegal access. Such access may be removed by Story County.

5. When the County resurfaces a paved highway and it becomes necessary to bring the level of an access up to the same level as the pavement, the county will match up the surfacing which is visible at the time of the work.

Permit forms are available from the Engineer's office or the county's website, www.storycounty.com, under the engineer's web page.

STORY COUNTY IOWA
RESOLUTION OF THE BOARD OF SUPERVISORS
RESOLUTION NO. 06-45

WHEREAS, Story County, Iowa, has adopted a flood plain management ordinance, with such requirements outlined in Chapter 15 of the *Land Development Regulations*;

AND WHEREAS, in order to meet requirements set forth by FEMA to participate in the flood hazard mapping program, Story County shall establish procedures for Flood Plain Management and Regulations;

NOW, THEREFORE, BE IT RESOLVED that the Administrative Procedures for Flood Plain Management and Regulations as attached and described herein is approved.

ADMINISTRATIVE PROCEDURES FOR FLOOD PLAIN MANAGEMENT AND REGULATION

1.0 STATEMENT OF INTENT

The best way for Story County to implement its flood plain management responsibilities is through consistent administration of the flood plain regulations. In order to do this, Story County has adopted written Administrative Procedures that clearly outline the requirements and regulations that will be applied to any development within the flood plain.

2.0 APPLICABLE REGULATIONS

Flood plain management has been established through Chapter 15 of the *Land Development Regulations*. Chapter 15 regulates:

- Development under provisions of the NFIP; (Development means any man-made change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation, or drilling operations or storage of equipment or materials.)
- The placement of structures, methods of construction, types of structures, alterations to structures (including manufactured homes);
- Additions, repairs or renovations to existing structures which are classified as substantial improvements;
- Certain provisions regarding subdivisions;
- Installation of water and sewer utilities;
- Filling, grading, channelizing, and excavating within the flood plain;
- Installation and replacement of roads and bridges, storage of materials and equipment; and
- Any related activities which may affect the level of the 100-year flood event.

3.0 FLOOD PLAIN MANAGER

As the agent for implementing the requirements of Chapter 15, the **Flood Plain Manager** is responsible for:

- Understanding the regulations governing the flood plain;
- Reviewing the flood plain development permit applications;
- Conducting inspections;
- Taking enforcement actions when necessary;
- Interacting in variance and appeal processes;
- Keeping records of all flood plain development;
- Collecting fees;
- Investigating complaints of violations;
- Maintaining and updating administrative forms;
- Disseminating flood plain management information; and
- Post-flood operating procedures.

4.0 FLOOD PLAIN PERMITS

Story County has established a flood plain development permitting system that includes regulating all flood plain development in the special flood hazard areas. It is important to note that the concept of "development" extends beyond the traditional "zoning" permit. Whereas the zoning permit is concerned solely with structures, the flood plain development permit includes buildings and alterations to landscape (such as excavation or use of fill) that would affect

drainage patterns or the flood carrying capacity of the watercourse. In reviewing an application, the key to remember is that the proposed activity itself must be safe from flooding and it must not increase the flood hazard to other areas.

4.1 Types of Flood Plain Permits

Story County issues the following permits for development in the flood plain:

4.1.1 Flood Plain Development Permit for Non-Structural Development. This Permit is applicable in cases where there is a proposal for non-structural changes including but not limited to mining, dredging, filling, grading, paving, excavation or drilling operations.

4.1.2 Flood Plain Development Permit for Structural Development. This Permit is applicable in cases where there is a proposal for anything constructed or erected on the ground or attached to the ground, or which requires attachment to something having a permanent location on the ground, including but not limited to buildings, factories, sheds, cabins, factory-built homes, storage tanks and other similar uses.

4.1.3 Zoning Permit. All development, non-structural or structural, in the flood plain also requires the issuance of a zoning permit.

4.2 Permit Application Packet

The Flood Plain Development Permit Application package to be submitted by the Applicant must include the following required information, as appropriate:

A. Flood Plain Development Permit Application;
B. Zoning Permit Application;
C. Technical documentation as required (see Section 4.3.3);
D. Any additional permits or reviews (see Section 4.3.4 and 4.3.5);
E. Plans and blueprints; and
F. Cost analysis for substantial improvement/substantial damages.

4.3 Permit Application Review

4.3.1 Application Review. The application form shall be reviewed for completeness and must be properly signed by the applicant.

4.3.2 Plan Review.

A. **Review** site plans, grading and excavation plans, and building design plans for:
   1. Completeness and clarity;
   2. Existing and proposed topographic information, including spot elevations;
   3. Boundaries of the floodway and the flood plain;
   4. Building elevations for all structures showing the level of the base flood elevation (BFE);
   5. Proposed obstructions in the floodway;
   6. Professional registered architect, engineer or land surveyor seal, if prepared by same;
   7. Location of all proposed development;
   8. Other considerations:
      a. Anchoring requirements
      b. Construction materials and methods
      c. Utilities
      d. Subdivisions

e. Encroachments
f. Elevation of the lowest floor
g. Floodways.

B. **Examine** SITE INFORMATION in detail for:
1. Location of property lines and proposed development;
2. Streets;
3. Watercourses;
4. Existing and proposed structures;
5. Topographic information;
6. Floodway and floodplain boundaries; and
7. References to any special regulations due to location of property.

C. **Assess** the ELEVATION DATA provided in the application:
1. Scrutinize the elevations using the elevation data contained in the Flood Insurance Study (FIS) and other available local data.
2. The flood-related delineations must be consistent with the FIS data.
3. When elevation data is not provided in the FIS for unnumbered A zones, the developer, as a cost of doing business must provide elevations for development in unnumbered A zones.
4. All elevation information should be accurate, as the application package will serve as the record substantiating the issuance of the permit.
5. NFIP requirements also stipulate that lowest floor elevations be recorded.

D. **Review** BUILDING DESIGN PLANS:
1. Type of structure and proposed use
2. The placement and elevation of the lowest floor
3. The type of foundation system
4. The existence of an enclosure below the lowest floor, if any
5. The elevation of the lowest floor in relation to the base flood elevation
6. The kind and potential use of the structure
7. The height to which a nonresidential structure is to be floodproofed
8. Anchoring systems to stabilize the structure during flooding.

E. **Have** ENGINEERING DOCUMENTS reviewed by the County Engineer.
The four separate engineering documents linked to the NFIP requirements are:
1. Hydrologic and hydraulic calculations concerning proposed floodway encroachments.
2. Loading calculations and methods of construction relative to floodproofing.
3. Alternative designs for meeting the minimum opening requirements for enclosures below the lowest floor.
4. Design and methods of construction for breakaway walls that exceed SOP loading resistance of twenty pounds per square foot.

F. **Verify** that all necessary technical documents are included and properly certified.
Three conditions that necessitate the filing of **certified documentation:**
1. **Floodway Encroachment/"No Rise" Certificate:** If any of part of the proposed project is to be located in a designated floodway, the applicant must submit engineering documentation demonstrating that the proposed encroachment would not result in any increase in base flood heights. There is no form or special format for a "No-Rise" certificate. It may be a written

statement, supported by hydraulic computations, signed by a registered professional engineer, who certifies that the development will result in no increase in flood heights.

2. **Watertight Floodproofing:** In the event a nonresidential structure is to be floodproofed according to the NFIP standards, the applicant must submit a statement or floodproofing certificate from a registered professional engineer or architect certifying that the design and methods of construction meet these standards. Note: To receive a flood insurance rate based on 100-year flood protection, the nonresidential structure must be dry floodproofed to an elevation at least one (1) foot above the base flood elevation to be rated at the base flood elevation rate (i.e. one foot of freeboard).
3. **Enclosures Below the Lowest Floor:** When an applicant designs an enclosure below the lowest floor using an alternative to the minimum standard for openings prescribed in the NFIP requirements, a registered professional architect or engineer must certify the design accounts for the effects of hydrodynamic loads and buoyancy.

4.3.3 Certified Documentation. Certified documentation may include:

A. **NFIP Elevation Certificate:** Provides a record of the as-built elevation of the lowest floor.
B. **NFIP Floodproofing Certificate:** Provides a record of the height of floodproofing.

4.3.4 Additional Permits.

A. In general, a Corps. of Engineers "404" permit is required for any placement of material (fill, piers, etc.) in a stream channel, or for the filling or draining of a wetland.
B. A permit from the Iowa Department of Natural Resources (IDNR) is required for any bridge, levy or dam, or any other development that is not addressed in the flood plain regulations.
C. The applicant should provide documentation to the Flood Plain Manager stating that all required Federal and State permits have been applied for, and that the project will not proceed until those permits are issued.
D. The Flood Plain Manager may want to send copies of the application to the Corps. of Engineers, Rock Island Division and to the Iowa Department of Natural Resources (IDNR) for their review.

4.3.5 Additional Review.

A. If the project involves an alteration or relocation of a watercourse, the Flood Plain Manager must notify adjacent communities, the Iowa Department of Natural Resources Floodplain Permits Branch, and the FEMA Regional Office.
B. A proposal to change a floodway delineation or a flood plain boundary must be reviewed and approved by FEMA in accordance with established procedures. Contact should be made with the FEMA Regional Office regarding such procedures.

4.4 Determine Compliance/Noncompliance

When review of a flood plain development permit application is complete, there are three options for action:

1) Approve the permit application
2) Conditionally approve the permit application
3) Deny the permit

4.4.1 Approval of the Proposal/Permit. If the proposal is found to be compliant, then the Flood Plain Manager must issue the permit.

A. The **floodplain development permit** becomes the official authorization from the County allowing the applicant to proceed based on the information submitted in the application package.

4.4.2 Denial of the Permit. If the proposal fails to comply with the regulations, then a flood plain development permit must be denied.

A. It is helpful to the applicant to have the major area(s) of noncompliance pointed out so the appropriate correction(s) can be made.
B. Clarification of deficiencies can help reduce the number of unnecessary appeals to administrative and regulatory decisions.

4.5 Inspections

Normal zoning inspection procedures shall be followed. When a structure is required to be elevated, an "Elevation Certificate" shall be required.

5.0 ENFORCEMENT

Often, public complaints serve to augment the routine inspection and enforcement processes. The Flood Plain Manager may be called on to investigate these ad hoc inquiries. The Flood Plain Manager should use these opportunities to monitor any encroachments that may have occurred in the flood plain (including fill, construction, placement of mobile homes, etc.).

Additionally, by developing professional relationships with other County staff and instructing them periodically on what types of violations may occur, the Flood Plain Manager can increase this flood plain monitoring capacity at no additional cost to the County.

5.1 Administrative Methods

If the infraction is found during an inspection of ongoing construction, the Flood Plain Manager can take initial steps to correct the problem by pointing out the deficiency to the developer and following up with another timely visit to ensure compliance.

If the violation is serious or if the problem continues after the follow-up inspection, the County can issue a stop work order to begin procedures to revoke the permit. All of these actions should be conveyed through certified letter that follow an established warning process.

If the violation continues, then usually formal legal action will have to be pursued.

5.2 County Infraction

The County infraction process has been established through Chapter 29, Violations and Penalties, of the *Land Development Regulations*. Issuance of a citation shall occur in accordance with the *Administrative Rules for Citing County Infractions*.

5.3 Simple Misdemeanor

Any person, firm or corporation violating the flood plain management regulations as established through the *Land Development Regulations*, or of any amendment or supplement thereto, may be deemed guilty of a Simple Misdemeanor and upon conviction thereof, shall be punished by a fine of not more than one hundred ($100) dollars or by imprisonment of not more than thirty (30) days. Each day during which

each violation continues may be deemed a separate offense.

5.4 Injunctive Relief

Most often in the form of a temporary restraining order, injunctive relief is the court directed order to the defendant to cease any further noncompliant conduct. The activity is usually shown to be of danger to the public and that immediate irreparable harm can occur. Once the illegal activity is stopped, the County can proceed to request a mandatory injunction to abate the violations as a public nuisance.

6.0 VARIANCES AND APPEALS PROCESS

6.1 Variances

The Story County Board of Adjustment in empowered to hear and decide variances to Chapter 15, Flood Plain (Overlay) District, of the *Land Development Regulations*. Variances granted must meet the following applicable standards:

A. No variance shall be granted for any development within the Floodway District which would result in any increase in the 100-year level. Consideration of the effects of any development on flood levels shall be based upon the assumption that an equal degree of development would be allowed for similarly-situated lands.
B. Variances shall only be granted upon:
    1. a showing of good and sufficient cause;
    2. a determination that failure to grant the variance would result in exceptional hardship to the applicant; and
    3. a determination that the granting of the variance will not result in increased flood heights, additional threats to public safety, or extraordinary public expense; create nuisances, or cause fraud on or victimization of the public.
C. Variances shall only be granted upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.
D. In cases where the variance involves a lower level of flood protection for buildings that what is ordinarily required by the *Land Development Regulations*, the applicant shall be notified in writing over the signature of the Planning and Zoning Director that:
    1. the issuance of a variance will result in increased premium rates for flood insurance up to amounts as high as $25 for $100 of insurance coverage; and
    2. such construction increases risks to life and property.
E. All variances granted shall have the concurrence or approval of the Iowa Department of Natural Resources.

In passing upon requests for variances, the Board of Adjustment shall consider all relevant factors specified the *Land Development Regulations* and:

A. The danger to life and property due to increased flood heights or velocities caused by encroachments.
B. The danger that materials may be swept on to other lands or downstream to the injury of others.
C. The proposed water supply and sanitation systems and the ability of these systems to prevent disease, contamination and unsanitary conditions.
D. The susceptibility of the proposed facility and its contents to flood damage and effect of such damage on the individual owner.
E. The importance of the services provided by the proposed facility to the County.
F. The requirements of the facility for a flood plain location.
G. The availability of alternative location not subject to flooding for the proposed use.
H. The compatibility of the proposed use with existing development and development

anticipated in the foreseeable future.

I. The relationship of the proposed use to the *County Development Plan* and flood plain management program for the area.
J. The safety of access to the property in times of flood for ordinary and emergency vehicles.
K. The expected heights, velocity, duration, rate of rise and sediment transport of the floodwater expected at the site.
L. Such other factors which are relevant to the purpose of the *Land Development Regulations*.

6.2 Approval of Variance

If a variance is approved, the County must send a letter to the applicant, in accordance with the *Land Development Regulations*, stating that the cost of flood insurance will be commensurate with the increased risk resulting from the reduced lowest floor elevation.

6.3 Appeals

Once the request for a variance is heard, it must be either granted or denied. If the variance is denied, the owner can seek relief through the judicial court system. Before the case can be presented to the court, all administrative and legislative remedies must be exhausted.

7.0 RECORDS

Flood-related information that shall be retained includes:

A. Flood Plain Development Permits/Applications;
B. (Includes all elevation and floodproofing certificates);
C. Recorded "As-Built" elevations;
D. Findings of fact relative to variances and appeals;
E. NFIP Biennial Report forms;
F. Other NFIP correspondence;
G. Flood plain management data;
H. "No-Rise" Certifications in cases of floodway development; and
I. Copies of "Submit for Rate" on all structures built below 100-year flood levels.

8.0 FEES

Any required fees which are applicable towards development in the flood plain are as approved by the Story County Board of Supervisors by resolution each calendar year.

9.0 MAINTENANCE AND UPDATES TO ADMINISTRATIVE FORMS

Form management should include these considerations:

A. Forms should include a listing of the application information outlined in the administrative provisions of the ordinance.
B. Forms should reflect the technical provisions of the ordinance by requiring information relative to those provisions.
C. The forms should be revised periodically to remain current with the changes in the flood plain management ordinance and to include pertinent information needs.
D. Flood plain development permit applications, variance requests, and other administrative forms should be kept current and in sufficient supply.
E. A good administrative form can serve as a checklist for identifying the other kinds of information that should accompany the application submission.

10.0 MAP APPEALS AND REVISIONS

Any official revision of the flood maps accomplished through either a Letter of Map Amendment (LOMA) or Letter of Map Revision (LOMR) should be appended to the official County flood plain map for permanent record.

11.0 MAINTENANCE OF FLOODPLAIN MAPS AND FLOOD DATA

The Flood Plain Manager is the contact for the County to determine the extent of the flood plain. As such, the Flood Plain Manager should:

A. Maintain an adequate supply of FEMA maps for administrative purposes;
B. Record all map corrections and notices of map revision and attach same to the official administrative map(s);
C. Maintain other sources of known flood data for approximate flood plain areas; and
D. Ensure the accurate flood plain maps are displayed in an appropriate public place.

12.0 BIENNIAL REPORTS

Every two years, FEMA sends a pre-printed form to the Story County Flood Plain Manager that should be completed and returned within thirty days. It requests information concerning any changes to the County's flood hazard area, development activities that have taken place in the flood plain, and verification of the number of flood plain residents and structures.

A. The report must be signed by the person completing the form and returned to FEMA at the address provided. A copy of the completed report should be retained in the county's files for future reference.
B. The Biennial Report indicates to FEMA the degree of development pressure on the floodplain. Variances issued in the flood plain are of particular interest to FEMA.

STORY COUNTY IOWA
RESOLUTION OF THE BOARD OF SUPERVISORS
RESOLUTION NO. 06-46

WHEREAS, Story County, Iowa, has established a code enforcement program to enforce the regulations set forth in the *Land Development Regulations*;

AND WHEREAS, in order to enforce said regulations, Story County adopted administrative rules for Citing County Infractions and Enforcing State Statutes in 1996 and revised on March 20, 1999.

AND WHEREAS, when initially adopted, the administrative rules were set up to outline enforcement procedures for the code enforcement program when it was a shared program and position between the Health Department and Planning and Zoning Department;

AND WHEREAS, the shared nature of the Code Enforcement Officer position has ceased and is funded through the Planning and Zoning Department's budget;

NOW, THEREFORE, BE IT RESOLVED that the Story County Administrative Rules for Citing County Infractions and Enforcing State Statutes as attached and described herein is approved.

STORY COUNTY
ADMINISTRATIVE RULES
(For Citing County Infractions and Enforcing State Statutes)

A. INTENT

It is the intent of these rules to establish written procedures as guidelines to be followed by the Story County Planning and Zoning Department for the enforcement of county Planning and Zoning regulations, by the Story County Board of Supervisors and the Iowa Department of Natural Resources. These administrative rules provide information to the public, as well as guidelines for the staff of the administering county departments, regarding the procedures to be used for the local enforcement of these ordinances, regulations, statutes or rules. In an effort to gain compliance with these county regulations, all persons responsible for enforcing the *Land Development Regulations* and Ordinance 52 shall first attempt compliance through inspections, notification, and request for voluntary compliance (unless stipulated differently by state statute or previously regulated procedure).

When all reasonable efforts to achieve voluntary abatement by the responsible party have failed, and administrative remedies have been exhausted, or when a repeat or continuation of the same violation persists as defined within Section B.4 of these administrative rules, the officer or agent for the county department delegated or authorized to enforce this ordinance, regulation, statute or rule, may issue a citation to any person, firm, or corporation determined to be committing the violation or county infraction. Those violations found to be defined by State statute, provision or rule, and for which the enforcement activity has been delegated to the county, may be alleviated under the County Infraction Provisions of Section 331.307 of the Code of Iowa. This is not to exclude the possible pursuit for abatement by other means authorized by the State of Iowa. (10/28/96, Revised 05/02/06)

B. NOTICE OF VIOLATION (Procedure)

1. A violation is brought to the attention of the Story County Planning and Zoning Department. (10/28/96, Revised 05/02/06)

2. An investigation is conducted to determine whether or not a violation exists. (10/28/96)

3. If a violation exists, a **Notice of Violation** is provided to the violator and a copy to the complainant, if appropriate. In the case of a violation by a tenant, the property owner or agent should receive a copy of the notice. Such notice shall request voluntary compliance with the zoning regulations and shall: (10/28/96, Revised 05/02/06)

    a) be in writing; (10/28/96)
    b) include a description of the nature of the violation, including the section(s) of the *Land Development Regulations* and Ordinance violated; (10/28/96, Revised 05/02/06)
    c) include the location and time(s) of the violation; and a description of the

Pg. 2

corrective action. (10/28/96, Revised 3/20/99)

d) allow thirty (30) days from the date of receipt or posting of the notice to correct/abate the violation, or to submit a compliance schedule to be approved by the Code Enforcement Officer; (10/28/96, Revised 3/20/99)

e) explain that failure to correct/abate the violation within the specified time will result in further action by the county, including prosecution as a simple misdemeanor punishable by a fine or imprisonment, or the issuance of a citation and the assessment of a fine; (10/28/96)

f) explain that each day each violation continues after the compliance date may be deemed a separate offense; (10/28/96)

g) explain that the **Notice of Violation** may be appealed to the Board of Adjustment within thirty (30) days from the date of receipt or posting of the notice, that an appeal stays all proceedings in furtherance of the action appealed from, that the Board of Adjustment must act within thirty (30) days from receipt of an appeal, and that the compliance date would be thirty (30) days from the date of the Board of Adjustment determination; and (10/28/96, Revised 05/02/06)

h) be served by personal service or by certified mail return receipt requested, or in the event neither can be accomplished, by posting the notice in a conspicuous place on the premises. (10/28/96)

4. In cases of a second or subsequent offense occurring within a five (5) year period, the **Notice of Violation** and **Request for Voluntary Compliance** is not required. The County may take direct action to prosecute as a simple misdemeanor or to issue a citation as a County Infraction. (10/28/96)

C. COUNTY INFRACTION (Issuance of a Citation)

If the violator does not correct/abate the violation or provide an acceptable schedule to correct/abate the violation, or does not comply with the schedule, a citation for a county infraction may be issued. Any county employee authorized by the Director of Story County Planning and Zoning to enforce the *Land Development Regulations* and Ordinance 52 may issue a citation. A citation shall be issued according to the following procedure. (10/28/96, Revised 05/02/06)

1. A citation may be issued only by an authorized employee who has witnessed the violation. (10/28/96)

2. A citation may be issued only after the following criteria have been met: (10/28/96)

   a) the issuance of the citation is authorized by the Planning and Zoning Director. (10/28/96, Revised 05/02/06)

   b) the citation is signed by the authorized employee issuing the citation prior to issuance/service to the violator; (10/28/96)

   c) the citation contains all information as required by State Law, including: 10/28/96)

      1) the name and address of the violator; (10/28/96)

2) the name or description of the infraction attested to by the authorized employee issuing the citation; (10/28/96)
3) the location and time of the infraction; (10/28/96)
4) the amount of the civil penalty (fine) to be assessed or the alternate relief sought, or both; (10/28/96)
5) the manner, location and time in which the penalty may be paid; 10/28/96)
6) the time and place of court appearance; and (10/28/96)
7) the penalty for failure to appear in court. (10/28/96)

3. The citation may be served by personal service or by certified mail return receipt requested. (10/28/96)

4. If the violation has not been corrected/abated by the compliance date established on the citation, a citation may be issued immediately for a repeat offense, i.e. a recurring violation of the same section of the *Land Development Regulations* and Ordinance 52. Each day each violation continues after the compliance date established on the citation may be deemed a separate county infraction. (10/28/96, Revised ~~3/20/99~~ 05/02/06)

5. Upon issuance of a citation, the employee shall give two (2) copies to the violator. One copy shall be retained by the Planning and Zoning Department and one copy (the original) shall be sent to the Clerk of Court's Office. (10/28/96, Revised 05/02/06)

6. All citations shall be numbered, and the Planning and Zoning Department shall keep a record of all citations issued or voided and shall be responsible for delivering a copy of the citation to the court. (10/28/96 Revised 05/02/06)

7. The employee issuing the citation shall appear in court when the hearing is held. (10/28/96)

D. COURT PROCEEDINGS (State Law Provisions)

Pursuant to Section 331.307, Code of Iowa, acts of the 71st General Assembly, the proceedings before the court are as follows: (10/28/96)

1. In proceedings before the court for a county infraction: (10/28/96)

a) The county has the burden of proof that the county infraction occurred and that the violator committed the infraction. The proof shall be by clear, satisfactory, and convincing evidence. (10/28/96)
b) The court shall ensure that the violator has received a copy of the charges and that the violator understands the charges. The violator may question all witnesses who appear for the county and produce evidence or witnesses on the violator's behalf. (10/28/96)
c) The violator may be represented by counsel of the violator's own selection and at the violator's own expense. (10/28/96)
d) The violator may enter a plea admitting or denying the infraction.

(10/28/96)

e) The verdict of the court for a county infraction shall be "guilty" of the county infraction or "not guilty" of the county infraction. (10/28/96)

2. If the person named in the citation is served as provided in this section and fails without good cause to appear in response to the civil citation, judgment shall be entered against the person cited. (10/28/96)

3. A person found guilty of a county infraction is liable for the court costs and fees. If a person is found not guilty of a county infraction or the action is dismissed, the county is liable for the court costs and court fees. Where the action is disposed of without payment, or provision for assessment, of court costs, the clerk shall at once enter judgment for costs against the county. (10/28/96)

4. Seeking a civil penalty as authorized in this section does not preclude a county from seeking alternative relief from the court in the same action. (10/28/96)

5. When a violator has been found guilty of a county infraction, the court may impose a civil penalty or may grant appropriate relief to abate or halt the violation, or both, and the court may direct that payment of the civil penalty be suspended or deferred under conditions established by the court. If a violator willfully fails to pay the civil penalty or violates the terms of any other order imposed by the court, the failure is contempt. (10/28/96)

6. A violator who has been found guilty of a county infraction may file a motion for a new trial or a motion for a reversal of a judgment as provided by law or rule of civil procedure. (10/28/96)

7. This section does not preclude a peace officer of a county from issuing a criminal citation for a violation of a county code or regulation if criminal penalties are also provided for the violation. Each day that a violation occurs or is permitted by the violator to exist, constitutes a separate offense. (10/28/96)

8. The issuance of a civil citation for a county infraction or the ensuing court proceedings do not provide an action for false arrest, false imprisonment, or prosecution. (10/28/96)

RESOLUTION NO. 06-49

RESOLUTION APPROVING LOAN AGREEMENT WITH THE IOWA FINANCE AUTHORITY (IFA) FOR FUNDS UNDER THE OURHOME SINGLE-FAMILY REHABILITATION REVOLVING LOAN PROGRAM IN CONNECTION WITH THE AMES/STORY COUNTY PARTNERSHIP AFFORDABLE HOUSING PROGRAM

WHEREAS, the ASCP includes the cities of Ames, Collins, Colo, Maxwell, McCallsburg, Nevada, Zearing, and the unincorporated areas of Story County; and,

WHEREAS, one of the affordable housing program components of the Ames/Story County Partnership (ASCP) has been the administration of a Minor Repair Program for single-family homeowners, and there currently exists a waiting list of homeowners needing this type of assistance; and,

WHEREAS, at their January 2006 meeting, the Partnership recommended that the City of Ames, as the ASCP Program Administrators, prepare an application to be presented to the Ames City Council for approval and submittal to IFA for funds under the OurHome Program.

WHEREAS, on March 28, 2006, the IFA, under their OurHome Single-Family Rehabilitation Revolving Loan Program, approved a loan in an amount not to exceed $150,000 to the Ames/Story County Partnership (ASCP); and,

WHEREAS, under the OurHome Program, the Iowa Finance Authority will provide funding in the form of a low-interest-rate loan of three percent to the City of Ames on behalf of ASCP; and,

WHEREAS, the ASCP's housing bank, beginning July 1, 2006, will have a fund balance of approximately $300,000, of which up to $150,000 will be earmarked to cover the loan from IFA in case any of the approved homeowners were to default on their loan payments.

NOW, THEREFORE, BE IT RESOLVED by the Story County Board of Supervisors, Story County, Iowa, supports the City of Ames on behalf of the ASCP to sign the Loan Agreement and other loan documents with Iowa Finance Authority for loan funds under their OurHome Single-Family Rehabilitation Revolving Loan Program and the earmarking of $150,000 from the Ames/Story County Partnership Affordable Housing Program housing bank to cover the loan should homeowners default are hereby approved.

RESOLUTION #06-50

NOTICE TO ALL PROPERTY OWNERS
Be it resolved by the Board of Supervisors of Story County, Iowa, that pursuant to the provisions of Chapter 317.13, Code of Iowa 2003, it is hereby ordered:

Each owner and each person responsible for managing lands shall cut, burn or otherwise control all noxious weeds as defined in this chapter. Weeds shall be controlled as prescribed in the program of weed control order or orders made by the Board of Supervisors. The owner and person responsible for managing any lands shall keep said lands free from the growth of any other weeds that make the streets or highways adjoining said land unsafe for public travel. It is highly recommended that organic producers either certified or in the process of being certified, contact the Story County Weed Commissioner's Office (515-382-7367).

In addition to the weeds listed in the Iowa Code 317, the Board of Supervisors declare the following weeds as noxious: Allaria petiolata (garlic mustard), Myriophyllum spicatum (Eurasian watermilfoil), Polygonum cuspidatum (Japanese bamboo) and Lythrum salicaria (purple loosestrife).

Noxious weeds shall be controlled before the following dates and as often thereafter as is necessary for control. Control Defined: Prevention of the spread of noxious weeds by limiting the production of reproductive structures.

Group 1 by June 5: Garlic mustard, leafy spurge, musk thistle, Eurasian watermilfoil, Japanese bamboo
Group 2 by June 15: Canada thistle, purple loosestrife
Group 3 by July 5: Annual sunflower

In case of failure to comply by the date prescribed in any order of control of weeds, the commissioner, the deputies, or agents may, subsequent to the time after service of the notice provided for in Section 317.6, enter upon the land and control the weeds or impose a maximum penalty of $10 per day, up to ten days, that the owner or person responsible for managing the land fails to comply. If a penalty is imposed and the owner or person responsible for managing the land fails to comply, the commissioner shall cause the weeds to be controlled. If the commissioner, the deputies, or the agents enter the land and control the weeds, the actual cost and expense of cutting, burning, or otherwise controlling the weeds, along with the cost of serving notice and special meetings or proceedings, shall be paid by the county and together with the additional assessment to apply toward costs of supervision and administration, be recovered by an assessment against the tract of real estate on which the weeds were growing as provided in Section 317.21. Any fine imposed shall be recovered by a similar assessment.

The Story County Integrated Roadside Vegetation Management program will spot spray and/or mow serious Canada thistle infestations in county road rights-of-way and will treat other right-of-way vegetation problems as necessary to insure safe travel. Costs to control noxious weed problems associated with physical changes in the right-of-way, (i.e. over spray, excess tillage, untimely mowing) may be assessed to those responsible for such acts per Story County ordinance 107.VI.1. Soil erosion by wind and water promotes annual and perennial weed growth on agricultural land and in road rights-of-way. Landowners are encouraged to utilize erosion control methods such as conservation tillage, field borders, buffer strips, and grassed waterways.

Nevada, IA 50201

Mr. Sperry,
The City of Gilbert in conjunction with the Gilbert Community School District had a Traffic Study completed by Mark Perrington at Snyder and Associates through an Iowa Department of Transportation TEAP. In addition to the recommendations from the TEAP, the City of Gilbert will be lowering the speed limit to 25 mph at the east corporate limit on the north side of 170th /Mathews Drive.

The City of Gilbert is requesting:

- Story County also lower the speed limit to 25 mph on the south side of 170th Street/Mathews Drive to the equivalent distance of the east corporate limits of Gilbert. This would provide slower speeds exiting Gilbert in front of the new middle school.
- Story County move/install, as necessary, the existing posted 35 and 45 MPH speed limit signs that reduce/increase the speed when entering/exiting town approximately 350 feet to the east. This is a recommendation from the TEAP study that the City cannot resolve without the assistance of Story County.

The City would like to have the requests completed by July 1, 2006 if possible. Thank you for your consideration on this matter for our community. If you need any further information on this request, please contact the acting City Clerk Carolyn Main. I will be leaving the City of Gilbert, for the City of Cresco on May 15, 2006.

Thank you again for your assistance.

John Lloyd
Gilbert City Clerk/Administrator

RESOLUTION

WHEREAS the Story County Board of Supervisors had requested an Engineering and Traffic Investigation of speed limit on several secondary highways, and

WHEREAS the Iowa State Highway Commission Traffic Engineer has caused to be made this said investigation and has made recommendations relative thereto, and

WHEREAS the Story County Board of Supervisors agree with the findings of the above mentioned Traffic Engineer, now

THEREFORE, BE IT RESOLVED by the Story County Board of Supervisors that the following road sections be restricted to the corresponding speeds set out below and the County Engineer is hereby directed to erect and maintain the necessary signs to clearly mark the designated speed limit on each road section.

On Route E23 beginning at the east corporate limits of the Town of Gilbert at the N.W. Cor. Section 10-84-24, thence running east to the N. ¼ Corner Section 10-84-24. Speed limit established at 45 MPH.

On Route E63 beginning at the N.W. Corner Section 21-82-21 and running east to the N. ¼ Corner Section 21-82-21. Speed limit established at 35 MPH.

On Route S14 beginning at a point 100-feet north of the Chicago, Rock Island and Pacific Railroad crossing, thence running north to the south corporate limits of the City of Nevada. Speed limit established at 45 MPH.

On Route S14 beginning at the point of tangency of circular curve near south entrance to Nevada Public Cemetery, thence south to corporate limits of the City of Nevada. Speed limit established at 25 MPH.

RESOLUTION 91-44

WHEREAS: The Board of Supervisors is empowered under authority of Section 321.255 and 321.285 Subsection 7 of the 1991 Code of Iowa to determine, upon the basis of an engineering and traffic investigation conducted by the Iowa Department of Transportation, that the speed limit on any secondary road is greater than is reasonable and proper under the conditions existing and may determine and declare a reasonable and proper speed limit, and

WHEREAS: Such an investigation was requested and completed in 1972 in accordance with the Manual on Uniform Traffic Control Devices, Section 2B-10, and the County Engineer has reviewed the recommendation of the Department, and

WHEREAS: The City of Gilbert requested a modification of the existing speed limits.

NOW THEREFORE BE IT RESOLVED by the Story County Board of Supervisors that the speed limits be established and appropriate signs be erected at the following locations on E23 west and east of Gilbert:

1. 45 miles per hour from 286 feet west of the centerline of R50 east to 514 feet east of said centerline of R50.
2. 35 miles per hour from 514 feet east of the centerline of R50 east to 1323 feet east of said centerline of R50.
3. 35 miles per hour from the centerline of Gretten Street east to 800 feet east of said centerline of Gretten Street.
4. 45 miles per hour from 800 feet east of the centerline of Gretten Street east to 1920 feet east of said centerline of Gretten Street.

This resolution supersedes and voids all previous resolutions which established speed limits on the road sections above described.

Passed and approved this 27th day of August 1991.

Re: Requested abatement on taxes from Ballard CSD for parcels 13-23-100-350 & 13-23-100-455

Regarding the request from the Ballard Community School District to abate taxes for the current year, I agree that the taxes on parcel 13-23-100-455 should be abated. The County Assessor's Office has already re-classified the parcel to Exempt status for the 2005 Assessment Year (taxes payable in 2006-07). However, based on its current use and classification, I do not approve of the abatement being extended to parcel 13-23-100-350. The county currently taxes similar agricultural parcels in Story County which are owned by school districts and classified the same (Ag Vacant). I do not agree that the current use fulfills the requirement that the property be "devoted to public use" under Iowa Code §427.1(2).

Re: Ballard Community School District
Petition to Abate Taxes
Tax Parcel 1323100350 ("Parcel 350")
Tax Parcel 1323100455 ("Parcel 455")

Dear Supervisors:

The District has received tax bills for Parcel 350 and Parcel 455, copies attached. The District hereby petitions the Board of Supervisors pursuant to Iowa Code § 427.8 (2005) for abatement of such taxes, and in support of this petition, the District states the following facts.

The District is an Iowa school corporation whose activities are exempt from property taxes under Iowa Code § 427.1(2) (2005).

On April 9, 2004, Ballard Community School District ("Ballard" or the "District") acquired 42.06 acres of land from Ballard, L.L.C., an entity owned by the Dickson Jensen family. This land was acquired for usage as practice fields for the school district's athletic teams, with an intention to use a significant portion of the site for future school buildings. The property was subject to a farm lease for the 2004 crop land, and therefore the District was obligated to honor that lease through December 31, 2004.

On September 1, 2004, the District traded 1.63 acres of the land acquired from Ballard, L.L.C. to Mr. Tom Shaeffer in exchange for 2.63 adjacent acres of land and cash. The land so acquired is being used for overflow parking and walkway to the new practice fields.

On January 21, 2005, the District entered into contracts to demolish the buildings and foundations and to cap the water wells located on Parcel 455. This demolition work was complete by April 9, 2005.

On April 7, 2005, the District started accepting bids to work on practice fields, a field events area, a driveway, parking, an outdoor lab for the District's science programs, and a walkway from the existing campus to that area. While that work continues (in part because of pending issues with the contractor), the football team used practice field #1 in August of 2005, and the soccer team used it during the entire Spring 2006 season. Practice field #2 has been completed, but use of that field is being deferred until a better stand of grass could be grown.

Practice Field #2 is the area that has been the subject of disputes with the contractor, and it was the District's intent to have started use of Practice Field #2 prior to this time.

The property described as Parcel 350 is being held for future use and development of a new school. It is currently planted to alfalfa by a farmer who pays no rent but who pays the cost of planting the alfalfa; in exchange for performing the seeding and mowing, the farmer is entitled to bale the hay from this parcel.

The District asks for abatement of the taxes that were payable with respect to Parcel 455 in September of 2005 and March of 2006. The District understands from conversations with Brent in the Assessor's office that Parcel 455 will not be assessed for taxation as of the January 1, 2005 assessment date, and therefore there will be no taxes payable with respect to Parcel 455 in September of 2006 and March of 2007.

With respect to Parcel 350, The District is asking for abatement of the taxes that were payable in September of 2005 and March of 2006 AND for abatement of such future taxes that may become payable with respect to Parcel 350. The District is holding this land for future school purposes, particularly for use as a future school site, and while the land is currently devoted to a crop of alfalfa, that arrangement is designed to maintain the site and prevent its condition from deteriorating or otherwise becoming weed-infested.

Ballard Community School District respectfully asks the Board of Supervisors to abate the taxes that have been assessed since January 1, 2004 against Parcel 350 and Parcel 455.

Please contact me if you have questions concerning this letter.

Sincerely yours,

BALLARD COMMUNITY SCHOOL DISTRICT

445.63 ABATEMENT OF TAXES.

When taxes are owing against a parcel owned or claimed by the state or a political subdivision of this state and the taxes were owing before the parcel was acquired by the state or a political subdivision of this state, the county treasurer shall give notice to the appropriate governing body which shall pay the amount of the taxes due. If the governing body fails to immediately pay the taxes due, the board of supervisors shall abate all of the taxes.
