STORY COUNTY SUPERVISOR RESOLUTION NO. 05 – 03

Support for a method of Area Service and Farm to Market Road Use tax
allocation as proposed by
the Secondary Road Fund Distribution Advisory Committee
Per Section 312.3C of the Code of Iowa.

Whereas, the former method of determining inter-county allocations of Area Service and Farm to Market Road Use Tax revenues, known as the Quadrennial Needs Study, was discontinued by SF2192, 2002 Iowa Acts, and,

Whereas, the Secondary Road Fund Distribution Advisory Committee, pursuant to the mandate of Iowa Code Section 312.3C, has developed and recommended a new method known as the "Factor Breakdown Method" and,

Whereas, after due study, Story County has determined that the proposed method will provide a base level of funding for all counties, and will allow for the allocation of funds to shift as population, system size, and traffic change over time, and,

Whereas, the "Factor Breakdown Method" has been endorsed by the Executive Boards of both the Iowa County Engineers Association and the Iowa State Association of County Supervisors, and,

Now Therefore Be it Resolved That, Story County Iowa hereby endorses the adoption of the Factor Breakdown Method by the Legislature as presented by the Secondary Road Fund Distribution Advisory Committee, to become effective in FY 2007 and be phased in over a five year period.

RESOLUTION #05-41

NOTICE TO ALL PROPERTY OWNERS

Be it resolved by the Board of Supervisors of Story County, Iowa, that pursuant to the provisions of Chapter 317.13, Code of Iowa 2003, it is hereby ordered:

Each owner and each person responsible for managing lands shall cut, burn or otherwise control all noxious weeds as defined in this chapter. Weeds shall be controlled as prescribed in the program of weed control order or orders made by the Board of Supervisors. The owner and person responsible for managing any lands shall keep said lands free from the growth of any other weeds that make the streets or highways adjoining said land unsafe for public travel. It is highly recommended that organic producers either certified or in the process of being certified, contact the Story County Weed Commissioner's Office (515-382-7367).

In addition to the weeds listed in the Iowa Code 317, the Board of Supervisors declare the following weeds as noxious: *Allaria petiolata* (garlic mustard), *Myriophyllum spicatum* (Eurasian watermilfoil), *Polygonum cuspidatum* (Japanese bamboo) and *Lythrum salicaria* (purple loosestrife).

Noxious weeds shall be controlled before the following dates and as often thereafter as is necessary for control. Control Defined: Prevention of the spread of noxious weeds by limiting the production of reproductive structures.

Group 1 by June 5: Garlic mustard, leafy spurge, musk thistle, Eurasian watermilfoil, Japanese bamboo

Group 2 by June 15: Canada thistle, bull thistle, purple loosestrife

Group 3 by July 5: Annual sunflower

In case of failure to comply by the date prescribed in any order of control of weeds, the commissioner, the deputies, or agents may, subsequent to the time after service of the notice provided for in Section 317.6, enter upon the land and control the weeds or impose a maximum penalty of \$10 per day, up to ten days, that the owner or person responsible for managing the land fails to comply. If a penalty is imposed and the owner or person responsible for managing the land fails to comply, the commissioner shall cause the weeds to be controlled. If the commissioner, the deputies, or the agents enter the land and control the weeds, the actual cost and expense of cutting, burning, or otherwise controlling the weeds, along with the cost of serving notice and special meetings or proceedings, shall be paid by the county and together with the additional assessment to apply toward costs of supervision and administration, be recovered by an assessment against the tract of real estate on which the weeds were growing, as provided in Section 317.21. Any fine imposed shall be recovered by a similar assessment.

The Story County Integrated Roadside Vegetation Management program will spot spray and/or mow serious Canada thistle infestations in county road rights-of-way and will treat other right-of-way vegetation problems as necessary to insure safe travel. Costs to control noxious weed problems associated with physical changes in the right-of-way, (i.e. over spray, excess tillage, untimely mowing) may be assessed to those responsible for such acts per Story County ordinance 107.VI.1. Soil erosion by wind and water promotes annual and perennial weed growth on agricultural land and in road rights-of-way. Landowners are encouraged to utilize erosion control methods such as conservation tillage, field borders, buffer strips, and grassed waterways.
