BOARD OF SUPERVISORS RESOLUTION NO. 95-29

RESOLUTION OF THE STORY COUNTY BOARD OF SUPERVISORS TO CONTINUE A WELL CLOSURE PROGRAM THRU THE REMAINING FISCAL YEAR 1995 AND SUBSEQUENT YEARS AND TO DIRECT THE USE OF THE GRANT MONIES RECEIVED FROM THE IOWA DEPARTMENT OF NATURAL RESOURCES TO THAT OF ASSISTING IN THE COST OF ELIMINATING DETERIORATED OR ABANDONED WELLS AND ADMINISTERING THESE PROGRAMS TO ASSURE THERE PROPER CLOSING OR PLUGGING.

The Board of Supervisors of Story County does hereby resolve:

"The well closure program for all areas of Story County, including the City of Ames, is being continued as outlined by Chapter 47 **PRIVATE WELL SAMPLING AND CLOSURE - GRANTS TO COUNTIES**, of Section 567 **ENVIRONMENTAL PROTECTION** in the Iowa Administrative Code. This program is to be an essential part of the existing overall inspection and permit program over nonpublic water wells. The program shall include locating and identifying abandoned wells as well as enforcing the requirements that these wells be closed by proper plugging. The duties for administering this program for Story County, shall be the responsibility of the Story County Health Department.

The grant monies made available to Story County by the Iowa Department of Natural Resources under a program provided for in Section 455B.172 of the Code of Iowa, shall be deposited into a separate account with the Story County Treasurer. From this amount, 25% or the maximum allowable amount provided by Paragraph 47.34 of Chapter 47 **Private Well Sampling and Closure - Grants to Counties**, of the Iowa Administrative Code, will be applied to the administrative costs of performing the tasks required in conducting this program. The remaining 75% will be directed to a separate account for authorized payments of claims for costs in closing private abandoned wells, as provided by Paragraph 47.33(5) of Chapter 47.

These Well Plugging Grant Monies are restricted to use on well elimination projects which are done in compliance with Chapter 39, **REQUIREMENTS FOR PROPERLY PLUGGING ABANDONED WELLS**. Well plugging projects which are done by contractors, must be done by people who are certified or approved by the Iowa Department of Natural Resources to do this type of work in the State of Iowa. These monies are to be made available to property holders for the reimbursement of expenses for the proper filling or plugging of any well needing to be eliminated in Story County. The amount of payment to be made for reimbursement of qualifying expenses for the costs of properly filling-in and sealing or plugging of a well is not to exceed two hundred dollars (\$200.00) per well, as provided by Paragraph 47.33 (5) of Chapter 47. The project cost is not to include property holder's own labor expenses. Reimbursement payments will only be made to the property holder of record of the property where the well is located or the legally authorized agent for that property.

Inspections must be done by the Story County Health Department's Health Sanitarian or Environmental Assistant on wells and plugging projects for which grant monies are to be applied for and used. These inspections must be done before work begins, so the well can be located and identified, and also when filling or plugging work is actually complete, in order to verify that the work had been done. These inspections are required to be done by Paragraph 47.36(2) of Chapter 47, which also provides what data must be collected and reported to the Iowa Department of Natural Resources. Failure to abide by these requirements will void the claim.

The claims procedure for these grant monies consists of completing a Story County Claim Form on which an account of the materials, expenses for contractor (if contracted out) and any additional costs directly associated with the abandoned well plugging are to be

shown. In addition to the claim form, attach all billing statements and/or receipt forms for materials or job. These claims are to be filed with the Story County Auditor and will be considered for payment in the order which they are received. Payments will only be made on claims approved by the Story County Health Department and until monies are depleted from the well plugging fund for that quarter. Any claims for well closing grant monies must be made within the grant agreement period that the well was closed, as provided by Paragraph 47.35 of Chapter 47."

BOARD OF SUPERVISORS RESOLUTION NO. 95-30

RESOLUTION OF THE STORY COUNTY BOARD OF SUPERVISORS TO CONTINUE THE GRANT FROM THE IOWA DEPARTMENT OF NATURAL RESOURCES FOR THE PURPOSE OF IMPLEMENTING AND CONDUCTING THE WATER WELL TESTING PROGRAM THRU FISCAL YEAR 1995 AND SUBSEQUENT YEARS.

The Board of Supervisors for Story County does hereby resolve:

"The grant monies, (in the amount of \$10,000.00 for Fiscal Year 1995), is being received from the Iowa Department of Natural Resources for the water well testing program for all areas of Story County. This money is being accepted and deposited with the Story County Treasurer. This deposit is to be recorded into Account No. (01-0222-23) of the General Basic Fund and is to be used as reimbursement of expenditures in implementing and conducting the water testing program. The use of this money has been defined in the program outlined to the Department of Natural Resources in Story County's (October 26, 1993) Grant Application, with the amount of work proportional to the amount of funds received. Use of these funds will be restricted to that which is provided for in Chapter 47 **PRIVATE WELL SAMPLING AND CLOSURE - GRANTS TO COUNTIES**, of Section 567 **ENVIRONMENTAL PROTECTION** in the Iowa Administrative Code. This program is being added to the county's existing programs voluntarily. This additional testing work will be essential in monitoring and evaluating our ground water quality from wells in the county. The program will include locating, evaluating and monitoring water wells in areas where ground water contamination is a concern, along with the needed follow-up action to correct any obvious violations revealed through this work. The duties for administering this program for Story County shall be the responsibility of the Story County Health Department.

**STORY COUNTY SECONDARY ROAD DEPARTMENT
DRIVEWAY AND ENTRANCE POLICY
EFFECTIVE APRIL 19, 1995**

GENERAL CONDITIONS

1. Definitions
 - a. A DRIVEWAY is an access from a highway to serve a residence.
 - b. An ENTRANCE is an access from a highway to any field, feed lot, yard, or building site other than a residence.
 - c. A CONTRACTOR is any person or company who performs the excavation necessary to construct or widen a driveway or entrance. This would include the owner/tenant if they do the construction.
2. Cross-Section
 - a. The minimum width of driveway or entrance will be 20 feet. This policy does not render existing driveways or entrances less than 20 feet in width obsolete.
 - b. The standard foreslope of a driveway or entrance will be a 3:1 slope. New and widened driveways and entrances on paved highways shall have flatter foreslopes of 10:1 (dry) and 8:1 (with culvert) as per Iowa D.O.T. Standard RL-7.
 - c. The maximum allowable width of a driveway or entrance shall be 45 feet. New and widened driveways over 32 feet in width are subject to a surcharge of \$20.00 per foot of additional width up to the 45 foot maximum width. (\$260.00 maximum surcharge)
3. Story County will not furnish surfacing material on any driveway or entrance. The property owner shall be responsible for surfacing on all existing and new driveways and entrances.
4. Existing driveways and entrances will be removed at no charge to the property owner, if the owner so requests.

CONSTRUCTION OF NEW AND WIDENED ACCESSSES

1. The location of all new driveways and entrances to be constructed must be approved by the County Engineer.
2. The necessity for a culvert at a new access and the size and length of the culvert must be determined by the County Engineer.
3. The work performed on all driveways and entrances approved to be constructed or widened at the request of a landowner or tenant will be by a contractor at the expense of the party requesting the work. The party requesting the access shall pay the contractor for all work and expenses involved.
4. Upon approval by the County for a new or widened access, the landowner or tenant requesting the access work shall make all arrangements for the construction. If the county road ditch needs cleaned at the proposed access site, Story County will perform the necessary work prior to the contracted work.

5. The contractor performing the new or widened access work shall, prior to commencing said work, comply with the following:
 - a. Contractor shall obtain a written permit from the County for the said construction.
 - b. Contractor shall have on file in the Story County Engineer's Office a certificate of insurance covering such projects. Minimum insurance limits for general liability shall be:

<u>Bodily Injury:</u>	\$500,000 each occurrence \$500,000 aggregate
<u>Property Damage:</u>	\$250,000 each occurrence \$250,000 aggregate
<u>or Combined Single Limit:</u>	\$750,000 each occurrence \$750,000 aggregate
 - c. Contractor shall purchase from Story County all necessary culverts for the work and pay any surcharges applicable to Story County.
 - d. Necessary traffic control signs may be picked up by the contractor at the county shop in Nevada, set up properly, removed and returned by the contractor, or the contractor may provide their own signs.
6. The contractor shall construct all new or widened accesses according to the standards set forth in this policy. The County Engineer shall be the sole judge as to whether the work was constructed to the County standards. The contractor will be given one opportunity to correct deficient work; after which Story County will make any needed corrections at the contractor's expense.
7. Any access constructed or widened without a permit will be removed by the County without notice at the expense of the responsible party.
8. If the landowner or tenant desires granular surfacing on an access, it may be placed without permission at the expense of the landowner or tenant. The maximum top size of granular surfacing shall be three inches. Permission must be obtained from the County Engineer prior to the paving, at their own expense, of any access by a landowner or tenant.

MAINTENANCE OF ACCESSSES

1. Story County will be responsible for maintenance of the portion of all legal driveways and entrances lying in their right-of-ways, except for the surfacing. The property owner shall be responsible for surfacing on all existing and new driveways and entrances.
2. If County maintenance activities disturb existing granular surfacing on a driveway, the County will restore the surfacing to its previous or better condition.
3. If it becomes necessary to disturb a paved driveway because of maintenance reasons, the County will not be responsible for restoration of any pavement removed from its right-of-way. Granular surfacing will be placed following the maintenance activity where any pavement was removed. The landowner shall be responsible for replacing any pavement at their own expense.
4. Any existing access found to be dry where a culvert obviously is required will be assumed to be an illegal access. Such access may be removed by Story County.
5. When the County resurfaces a paved highway and it becomes necessary to bring the level of an access up to the same level as the pavement, the county will match up the surfacing which is visible at the time of the work.
